Director’s Report

Buildings and Grounds:

- We have replaced the bulletin board in the lobby with a monitor that will display upcoming events and programs, information about library hours and services and infographics reflecting statistical data about library use and collections.
- Bid documents for the plaza renovation are in the final stages of preparation, I expect the RFP for this project to be issued next week. Once bids are received the working group will reconvene to discuss the proposals: we won’t have a timeline for construction of phase 1 until a vendor is selected and contract negotiations are complete.
- I will be bringing our same 4 projects to the capital improvements committee on Monday, January 13th: brick repointing, HVAC renovation and digital controls, plaza renovation. Hard copies of my submissions will be available at the Board meeting, please let Elena or I know if you’d like electronic copies ahead of time.

Department updates

- Credit card readers were installed on the public printers last week, customers can now pay for their print jobs with credit or debit cards. This change does not apply to the photocopiers, we would not reach the monthly minimum required on that machine, but we can offer a workaround to customers when needed.
• Implementation of the ILS enhancements began in December: MobileCirc is up and running and staff is being trained, integration of our digital collections into the catalog is in process and we expect the full authority cleanup to happen in the next couple of weeks. Our next focus will be improvements to Enterprise and accepting online payments of fines.

• Rachel Gualco is out on maternity leave until April 1, in the meantime other library staff are taking on the majority of her duties and we are contracting with a local graphic designer for some of our printed materials and handouts. Thanks especially to Carol for managing that and the art gallery installations on top of her regular work load.

• Tax help will begin on February 3: drop-ins are welcome but customers can dial 211 to make an appointment and this year online scheduling of appointments is available by visiting http://ndts.weebly.com/

• Winter Reading challenges: the Mayor’s Winter Reading challenge and the NPL Long Winter Read both kicked off on December 20th: readers can log their reading time in Beanstack to be eligible for electronic badges and incentives. As of January 2, 2020 there were 97 students grades K-8 registered for the Mayor’s program and 65 Teens and Adults registered for the Long Winter Read.

Administration updates

• The city has begun the process of selecting preferred vendors for a variety of services including: Electricians, Plumbers, HVAC, Landscaping, Photography, Apparel and promotional items, Tree removal and Printing. We are looking forward to this improvement in procedures which will considerably improve efficiency. Elena has submitted our list of regular providers for those services so they will be included in the procurement process.
• Beginning this month (January, 2020) materials for the Board of Trustee meetings will be posted on the city’s website in the agenda center with the exception of items for the Board to consider that aren’t a matter of public record, those will be emailed directly to members.

• Policy updates: I had a revision to the Meeting Room policy ready for last month’s Board meeting but in the intervening month another issue has come up that requires further revision of the policy, a final draft will be ready for your review at the February meeting. Also in process are revisions to the Collection Development policy and Code of Conduct; I’m also developing a new policy for accepting works from local authors.

Budget/Financial updates

• We received our budget instructions from the CFO last week, budget worksheets will be sent out on January 14th and our proposed budget is due to his office on Tuesday, February 4th. I’ll request an extension of that deadline since that is the date of the Board’s next regular meeting at which you will be reviewing and discussing our FY2021 budget proposal.

Monthly statistics

This is a new section I’ll be including in my monthly reports: the categories will vary from month to month. In addition the Board will also receive a year-end statistical report on a wide range of library activities including circulation, library visits, use of computers and use of our streaming services.

• December door count: 16,939

• Kanopy: Customers visited our Kanopy page 2,715 times and 539 films were streamed in December, a total of over 17,000 minutes of viewing time.

• Hoopla: our newest eMedia service which launched on December 5th has already been used by 98 customers who have circulated 141 items.

• Overdrive: Nashua customers used 5,195 eBooks and eAudio using this service in December.
