ADJOURNMENT

TO: Mayor Donchess
    Finance Committee

FROM: Doria Brown, Energy Manager

SUBJECT: Pre-approval to enter into contracts with 3rd party suppliers for natural gas and electricity supplies

The Energy Manager is seeking pre-approval to competitively solicit and enter into agreements with 3rd party energy suppliers for the tariff-controlled supply portion of its natural gas and electricity utility bills. There are several reasons for the purpose of this pre-approval, which are as follows:

- The City has realized both substantial cost savings and budget certainty by utilizing 3rd party energy suppliers;
- These contracts must be executed and received by the supplier by 3 p.m. the same day the quote is received to ensure delivery of the stated price and to avoid unfavorable pricing terms and/or fluctuations;
- Natural Gas and/or Electricity contracts may be multi-year contracts to take advantage of the most favorable terms offered.

The executed contracts will be provided via communication to the Finance Committee at their next regularly scheduled meeting.

FROM: DAN KOOKEN – CITY OF NASHUA PURCHASING MANAGER

TO: FINANCE COMMITTEE

SUBJECT: APPROVAL FOR DONATION OF A SURPLUS PICKUP TRUCK FROM THE PARKS AND RECREATION DEPARTMENT TO GROW NASHUA

The purpose of this communication is to inform you of and ask your approval for an equipment donation of a surplus pickup truck from the City of Nashua Parks and Recreation Department to Grow Nashua. I have included a Memo from Nicholas Caggiano, Superintendent of Nashua Parks and Recreation Department with information about the donation of vehicle 09-532 along with images of the vehicle and a letter from Grow Nashua’s Executive Director, Justin Munroe indicating their desire to accept this donation if approved and how it would be used by their organization.

§ 5-88. Surplus stock.

All using agencies shall submit to the Purchasing Manager, at such times and in such form as he shall prescribe, reports showing stocks of all supplies which are no longer used or which have become obsolete, worn out or scrapped.

The Manager shall have the authority to transfer surplus stock to other using agencies. The Manager shall have the authority to sell, by sealed bid or online auction, all supplies which have become unsuitable for public use, or to exchange the same for, or trade in the same on, new supplies.

[Amended 10-9-2012 by Ord. No. O-12-022]

With approval of the Finance Committee, the Purchasing Manager may donate, barter, gift or otherwise dispose of surplus material, stock or equipment which has failed to be sold, exchanged or traded pursuant to Subsection B.

The Parks and Recreation Superintendent and the Purchasing Department recommend this donation to Grow Nashua.

Respectfully,

Re: Donation of vehicle 09-532

The DPW was asked to locate a vehicle that was being replaced and see if it could be donated to Nashua Grows. This nonprofit is in need of a vehicle to take their restaurant compost program to the next level. I have attached a memo from Nashua Grows explaining their program as well as some pictures of the vehicle. Vehicle 09-532 was identified as a potential vehicle that could be donated. The vehicle is scheduled to be replaced this year through CERF this year. The vehicle is a 2009 2 wheel drive Ford F150 that is in fair condition. The vehicle would have the decals, radio, avl unit, and tow hitch removed. The tool boxes would remain.

The vehicle has a Kelley Blue Book value between $5,500 and $6,500. This vehicle would be able to be handed over as soon as all of the approvals have been received.
Mr. Caggiano,

We at Grow Nashua graciously accept your generous donation of a vehicle to use for the expansion of our Curbside Compost pickup program. We began this program in May of 2018 with the intention of:

- a) educating the Nashua community about the benefits of composting,
- b) diverting food waste from the Four Hills Landfill
- c) creating green jobs for our community
- d) garnering support for our other community-based programs

The Curbside Compost program has seen great success and steady growth since the launch of its pilot program, and we have since diverted over 30 tons of food waste and organic material from the landfill. While growth of this program has exceeded our expectations, we are currently missing a key component for our program to continue - a truck to transport materials.

With the City of Nashua’s support and generous donation, we will gain capacity to expand our services to reach more residential and commercial clients, such as our local restaurant partners. This expansion will dramatically increase our ability to divert food waste from the landfill and believe we can increase our yearly average from 60,000 lbs per year to over 200,000 lbs per year.

We thank you from the bottom of our hearts, and we are confident that Grow Nashua will maximize the use of this vehicle while making the Division of Public Works and the City of Nashua proud to be our partners on this endeavor.

Sincerely,

Justin Munroe
Executive Director Grow Nashua

The OWNER will promptly reply to the CONTRACTOR in writing if, after due investigation, he has reasonable objection to the subcontractors or suppliers listed.

6. Unless otherwise provided in the Contract Documents, the CONTRACTOR shall provide and pay for labor, materials, equipment, tools, utilities, transportation, and other facilities and services necessary for proper execution and completion of the work.

7. The CONTRACTOR shall deliver, handle, store and install materials in accordance with manufacturers' instructions.

8. The CONTRACTOR warrants to the OWNER that (1) materials and equipment furnished under the contract will be new and of good quality unless otherwise required or permitted by the Contract Documents; (2) the Work will be free from defects not inherent in the quality required or permitted; and (3) the Work will conform to the requirements of the Contract Documents.

Re: Contract for Portable Restroom Rental and Service.

B. Motion: To approve the purchase of Rest Room Services with United Site Services of Haverhill MA for the 2020, 2021, 2023 portable restroom contract for the annual sum of $32,140.00. Funding for the contract will be through Department: 177 Park & Recreation; Fund: General and Trusts; Account Classification: 54 Property Services.

Attachments: Quote from United Site Services.

Discussion: This purchase will continue to provide portable restroom services at a rate of $119.00 per month and ADA units at $169.00 per month. The contract was advertised through the Purchasing Department. The bid was sent to 7 vendors and was advertised through the Bid Express System. One bid was received. The bid came in much higher than anticipated. We met with the vendor and negotiated the rate down and they have agreed to hold these rates through 2023. This rate is lower than the current NH state Bid.
Currently we seasonally provide 32 units at various parks and playgrounds throughout the city. The units are serviced 2 times per week. The majority of the units are in place from Mid-April through Early November. The Superintendent and Purchasing Manager recommends awarding the purchase to United Site Services.

When Independent Contractor seeks changes, Independent Contractor shall, before any work commences, estimate their effect on the cost of the contract and on its schedule and notify the City of Nashua in writing of the estimate. The proposal for a change shall provide enough detail, including personnel hours for each sub-task and cost breakdowns of tasks, for the City of Nashua to be able to adequately analyze the proposal. The City of Nashua will then determine in writing if Independent Contractor should proceed with any or all of the proposed change.

Except as provided in this paragraph, Independent Contractor shall implement no change unless the City of Nashua in writing approves the change. Unless otherwise agreed to in writing, the provisions of this contract shall apply to all changes. The City of Nashua may provide verbal approval of a change when the City of Nashua, in its sole discretion, determines that time is critical or public health and safety are of concern. Any verbal approval shall be confirmed in writing as soon as practicable. Any change undertaken without prior City of Nashua approval shall not be compensated and is, at the City of Nashua's election, sufficient reason for contract termination.

6. CITY OF NASHUA COOPERATION The City of Nashua agrees that its personnel will cooperate with Independent Contractor in the performance of its work under this contract and that such personnel will be available to Independent Contractor for consultation at
reasonable times and after being given sufficient advance notice that will prevent conflict with their other responsibilities. The City of Nashua also agrees to provide Independent Contractor with access to City of Nashua records in a reasonable time and manner and to schedule items that require action by the Board of Public Works and Finance Committee in a timely manner. The City of Nashua and Independent Contractor also agree to attend all meetings called by the City of Nashua or Independent Contractor to discuss the work under the Contract, and that Independent Contractor may elect to conduct and record such meetings and shall later distribute prepared minutes of the meeting to the City of Nashua.

7. **DISCOVERY OF CONFLICTS, ERRORS, OMISSIONS, AMBIGUITIES, OR DISCREPANCIES**

Independent Contractor warrants that it has examined all contract documents, has brought all conflicts, errors, discrepancies, and ambiguities to the attention of the City of Nashua in writing, and has concluded that the City of Nashua's resolution of each matter is satisfactory to Independent Contractor. All future questions Independent Contractor may have concerning interpretation or clarification of this contract shall be submitted in writing to the City of Nashua within 10 calendar days of their arising. The writing shall state clearly and in full detail the basis for Independent Contractor's question or position. The City of Nashua representative shall render a decision within 15 calendar days. The City of Nashua's decision on the matter is final. Any work affected by a conflict, error, omission, or discrepancy which has been performed by Independent Contractor prior to having received the City of Nashua's resolution shall be at Independent Contractor's risk and expense. At all times, Independent Contractor shall carry on the work under this contract and maintain and complete work in accordance with the requirements of the contract or determination of the City of Nashua. Independent Contractor is responsible for requesting clarification or interpretation and is solely liable for any cost or expense arising from its failure to do so.

8. **TERMINATION OF CONTRACT**

**A. TERMINATION, ABANDONMENT, OR SUSPENSION AT WILL.** The City of Nashua, in its sole discretion, shall have the right to terminate, abandon, or suspend all or part of the project and contract at will. If the City of Nashua chooses to terminate, abandon, or suspend all or part of the project, it shall provide Independent Contractor 10 days' written notice of its intent to do so.

If all or part of the project is suspended for more than 90 days, the suspension shall be treated as a termination at will of all or part of the project and contract.

Upon receipt of notice of termination, abandonment, or suspension at will, Independent Contractor shall:

1. Immediately discontinue work on the date and to the extent specified in the notice.
2. Place no further orders or subcontracts for materials, services, or facilities, other than as may be necessary or required for completion of such portion of work under the contract that is not terminated.
3. Immediately make every reasonable effort to obtain cancellation upon terms satisfactory to the City of Nashua of all orders or subcontracts to the extent they relate to the performance of work terminated, abandoned, or suspended under
the notice, assign to the City of Nashua any orders or subcontracts specified in the notice, and revoke agreements specified in the notice.

4. Not resume work after the effective date of a notice of suspension until receipt of a written notice from the City of Nashua to resume performance.

In the event of a termination, abandonment, or suspension at will, Independent Contractor shall receive all amounts due and not previously paid to Independent Contractor for work satisfactorily completed in accordance with the contract prior to the date of the notice and compensation for work thereafter completed as specified in the notice. No amount shall be allowed or paid for anticipated profit on unperformed services or other unperformed work.

B. TERMINATION FOR CAUSE

This agreement may be terminated by the City of Nashua on 10 calendar day's written notice to Independent Contractor in the event of a failure by Independent Contractor to adhere to any or all the terms and conditions of the contract or for failure to satisfactorily, in the sole opinion of the City of Nashua, to complete or make sufficient progress on the work in a timely and professional manner. Independent Contractor shall be given an opportunity for consultation with the City of Nashua prior to the effective date of the termination. Independent Contractor may terminate the contract on 10 calendar days written notice if, through no fault of Independent Contractor, the City of Nashua fails to pay Independent Contractor for 45 days after the date of approval by the City of Nashua of any Application for Payment.

Upon receipt of notice of termination for cause, Independent Contractor shall:

1. Immediately discontinue work on the date and to the extent specified in the notice.
2. Provide the City of Nashua with a list of all unperformed services.
3. Place no further orders or sub-contracts for materials, services, or facilities, other than as may be necessary or required for completion of such portion of work under the contract that is not terminated.
4. Immediately make every reasonable effort to obtain cancellation upon terms satisfactory to the City of Nashua of all orders or sub contracts to the extent they relate to the performance of work terminated, abandoned, or suspended under the notice, assign to the City of Nashua any orders or sub contracts specified in the notice, and revoke agreements specified in the notice.
5. Not resume work after the effective date of a notice of termination unless and until receipt of a written notice from the City of Nashua to resume performance.

In the event of a termination for cause, Independent Contractor shall receive all amounts due and not previously paid to Independent Contractor for work satisfactorily completed in accordance with the contract prior to the date of the notice, less all previous payments. No amount shall be allowed or paid for anticipated profit on unperformed services or other unperformed work. Any such payment may be adjusted to the extent of any additional costs occasioned to the City of Nashua by reasons of Independent Contractor's failure. Independent Contractor shall not be relieved of liability to the City of Nashua for damages sustained from the failure, and the City of Nashua may withhold any payment to the Independent Contractor until such time as the exact amount of damages due to the City of Nashua is determined. All claims for payment by the Independent Contractor
must be submitted to the City of Nashua within 30 days of the effective date of the notice of termination.

If after termination for the failure of Independent Contractor to adhere to any of the terms and conditions of the contract or for failure to satisfactorily, in the sole opinion of the City of Nashua, to complete or make sufficient progress on the work in a timely and professional manner, it is determined that Independent Contractor had not so failed, the termination shall be deemed to have been a termination at will. In that event, the City of Nashua shall, if necessary, make an adjustment in the compensation paid to Independent Contractor such that Independent Contractor receives total compensation in the same amount as it would have received in the event of a termination-at-will.

C. GENERAL PROVISIONS FOR TERMINATION Upon termination of the contract, the City of Nashua may take over the work and prosecute it to completion by agreement with another party or otherwise. In the event Independent Contractor shall cease conducting business, the City of Nashua shall have the right to solicit applications for employment from any employee of the Independent Contractor assigned to the performance of the contract. Detailed Review: Base Cost Validity

Methuen has made a claim for the work as required based on RFI responses, submittal reviews and Field conditions. The claim is based on their work and their subcontractor’s work resulting from the above. Waldron has reviewed the design documents, OEM submittals, submittal reviews, and RFI responses regarding this issue. Waldron has relied on vendor quotes, project cost estimations, historical project data, RS Means, and its own proprietary cost data to review the cost validity of the work scope.

The original scope of work included supporting pipe by hanging it directly from the roof/ceiling of the Energy Recovery Building. The revised scope of work included the additional scope of installation of a Unistrut system below the roof, from which pipe could then be supported. Methuen included cost associated with supporting the pipe directly from the roof in their original price. The addition of the Unistrut did cause Methuen to incur additional cost associated with installation of the system itself, for which we recommend that they are compensated. These costs included the below:

1. Materials such as Unistrut components and Hilti anchors
2. Subcontractor services including ground penetrating radar and installation of the Unistrut system.
3. Self-performed labor including staging delivery of material, material pickup, exploratory drilling in the ceiling, and conducting pull tests of test anchors.

The table below summarizes the total value of the work.

</tbody>

*Market Value Assessment=$11,913 to $17,869 (+/- 20%)
** This review assumes all labor performed by subcontractors. See below.

Note that Methuen's summary page identifies a credit of $4,232.40. This credit is intended to account for the cost of the original pipe support system. It is incorrectly labelled as "Bond (1%) and General Liability (1%)". Waldron evaluated the cost claim on the basis of the incremental cost increase associated with the addition of the Unistrut system only. Thus no credit is considered in our evaluation, but since Methuen's final claim amount falls within the fair value of the incremental scope of work we take no exception.

Note that some of the material costs were added between the original version and revision 1. This occurred because some materials were delivered after the original version of the PCO.

Note that after revision 1 Methuen was asked to clarify GPR charges between this and PCO-008. As a result, revision 2 was issued with an increase in claimed cost based on these revisions.

Detailed Review-Superintendent Labor Hours
The General Contractor's superintendent labor hours can only be charged to the project when he self-performs work. Supervisory duties of GC labor or his subcontractor's labor are not chargeable as they are included in the General Contractor's markup. As noted above, Methuen has provided a description of work performed directly by the project superintendent. To the best of our knowledge this information is accurate and we recommend they are compensated. Including this cost, the Methuen claim still falls within the assessed cost of this scope of work.

Detailed Review-General Contractor Markup
The general Contractor is permitted to mark-up his sub's work in accordance with the contract general conditions section 17.3. The schedule of permitted mark-up is shown in the summary table above. In this PCO, Methuen applied markup correctly, we take no exception.

Detailed Review-Schedule
Methuen reserves their right to claim schedule impacts under separate cover. Methuen PCO-004 is designated to account for delays.

Conclusion

Waldron has reviewed all the available information, and has taken into consideration the factors surrounding the issues in question.

Waldron recommends approving $19,000.87 of the claim as noted above and did not review schedule impacts under this PCO.

Pipe Supports

Scope: Methuen Construction had concerns with the pipe support system called out in the contract documents. Waldron had distributed ECN-002 expressing their concerns with the existing roof integrity. Following this notice, Methuen had GPR on site to scan the ceiling to further examine existing conditions. It was determined that there were various voids all throughout the ceiling. In order to further explore the ceiling integrity, we had to perform some exploratory drilling to accurately map out the voids in the ceiling. We also performed pull tests on sample anchors. After gathering all of this data, the owner/engineer was able to provide a pipe support design as requested by the city of Nashua. Once we had the design, we called a Hilti rep to inspect the ceiling, and provide Unistrufs and Hilti epoxy. We then furnished and installed the new pipe support system. Labor includes everything mentioned above, including ordering, staging, delivery, material pick-ups, subcontractor management, and providing Unistrufs. This is a delay in our critical path which will require an extension to our contract. PLEASE NOTE THAT 60 CALENDAR DAYS NEEDS TO BE ADDED TO THE FINAL COMPLETION DATE. PROJECT WAS Postponed From 10/19/19-11/16/19. Approximately 2 months working on a new pipe support design and 2 months installing the system (3 day working weeks). Methuen reserves our rights to subcontracts general conditions which are submitted under a separate PCO No.4.

FINANCE COMMITTEE

SUBJECT: LANDFILL GAS EXPANSION – CHANGE ORDER 1 (VALUE: $135,140)
DEPARTMENT: 168 SOLID WASTE; FUND: BOND

Please see the attached communication from Jeff Lafleur, Solid Waste Department Superintendent dated January 30, 2020 for the information related to this contract.

Pursuant to § 5-78 Major purchases (greater than $10,000) A. All supplies and contractual services, except as otherwise provided herein, when the estimated cost thereof shall exceed $10,000 shall be purchased by formal, written contract from the lowest responsible bidder, after due notice inviting bids.

The Solid Waste Department Superintendent, Board of Public Works (January 30, 2020 meeting) and the Purchasing Department recommend the award of this contract change order 1 in an amount of $135,140 to SCS Field Services of Reston, VA.

Re: 2019 Landfill Gas Collection and Control System Expansion Change Order

A. Motion: To approve a change order to the contract with SCS Field Services of Reston, VA in the amount of $135,140 pending bond approval. Funding will be through Department 168 Solid Waste; Fund: Bond; Activity: Landfill Gas Expansion FY20.

Attachments: Schedule of Values

Discussion: The City issued a contract to SCS Field Services to construct an expansion of the landfill gas collection system in the Phase I/II landfill. After receiving bids to build the expansion, which includes new horizontal and vertical gas wells, one of the main vacuum headers in the landfill began showing signs of failure (e.g. loss of vacuum to several gas collectors). This change order is for the replacement of the vacuum header. The Solid Waste Department’s engineering firm, Sanborn Head and Associates, Inc. (SHA) prepared a construction design for the replacement header. This work is required to control odors, mitigate fugitive methane surface emissions and comply with the NHDES approved Operating Plan – Phase II Secure Landfill Expansion and the Landfill Gas Collection System Enhanced Monitoring Protocol/Standard Operating Procedures (EMP/SOP).
