PREVIOUS MEETING MINUTES APPROVAL – Thursday, May 7, 2015

REMARKS BY CHAIRMAN

REMARKS BY SCHOOL ADMINISTRATION (if requested)

CONSTRUCTION PROJECTS COMMITTEE REPORT

• Approval of the minutes of meetings held Thursday, April 23, 2015; Thursday, May 7, 2015, and an oral report of a meeting held earlier this evening

ITEMS FOR DISCUSSION AND APPROVAL

• Discussion – Construction Update
• Contract(s) Approval (if needed)
• Invoice(s)
• Other (if needed)

COMMENTS BY MEMBERS OF THE PUBLIC

COMMENTS BY COMMITTEE MEMBERS

ADJOURNMENT
A meeting of the Joint Special School Building Committee was held at Nashua High North on Thursday, May 7, 2015. Alderman Dowd called the meeting to order at 8:22 p.m. Mr. Donovan read the prayer and Mr. Hallowell led the Pledge of Allegiance.

Present: Alderman Dowd, Alderman McCarthy, Alderman Melizzi-Golja, Alderman Schoneman, Mr. Farrington, Mr. Haas, Mr. Hallowell, Mr. Mosher

Also Present: Mr. Donovan

This meeting can be viewed in its entirety at: http://nashua.esstream.com
Meeting Handouts and referenced materials can be viewed along with the minutes at: Minutes Link

Previous Meeting Minutes Approval

Alderman McCarthy moved that the previous minutes of the JSSBC meeting held Thursday, April 23, 2015 be accepted, placed on file and the readings be waived. So voted.

Remarks by Chairman

Alderman Dowd
Sorry we're late, but we had a lot to cover at the Construction Projects Committee meeting. The 2 people from Harriman and Shawn are at the Planning Board tonight going through the site approval for Sunset Heights tonight.

Remarks by School Administration
None.

Committee Reports

Approval of the Construction Projects Committee meeting minutes of Thursday, April 23, 2015 were deferred until the next meeting.

Alderman McCarthy moved that the rules be suspended to allow for an oral report of a meeting held earlier this evening. So voted.

Alderman McCarthy
The Committee met earlier this evening and took action on a number of items with regard to both Broad Street and Sunset Heights.
We recommended approval of Change Order #22 to Broad Street, which is the final cost for the relocation of the playground, in the amount of $100,169.89. That is approximately the same number that was in the budget to cover that cost.

We recommended the approval of an agreement with Harriman in the amount of $7,200 to work up the roof structure design. We have received a report from them detailing which sections of the roofs are non-code compliant with regard to snow loading. And the next phase is for them to do a detailed design of the construction. We spent a lot of time with Harvey looking at estimates for that cost. The good news is we think we can do it all from underneath the roof and inside the building, and not have to pull the roofs off to address it. The bad news is, including the replacement of the roofs the cost comes to a little over $1.6 million. So we’re looking at how to finance that. It is possible to delay about $700,000 of that, which is the actual roof replacement since we can do the roof from inside. So I will be looking at how we can structure that financing, and bring a proposal to the BOA once we have a price.

The Committee also recommended approval of a buyout of 9 additional building trades, which primarily complete the project. They are:
Electrical to Stellos Electric, in the amount of $991,210;
Fire Protection work to Hampshire Fire Protection, in the amount of $40,800;
Reinforcing Steel to Rebars & Mesh, in the amount of $12,579;
Foundation Form / Flatwork to Premier Concrete, in the amount of $104,000;
Structural Steel to S.L. Chasse Steel, in the amount of $215,000;
Masonry to McEntee Masonry, in the amount of $227,950;
Millwork Aubin Woodworking, in the amount of $205,582;
Glass and Metal Panels to Marvell Glass, in the amount of $489,150; and
Audio Visual Systems to Pro AV Systems, in the amount of $127,000.

And with those, that allows us to get to the Guaranteed Maximum Price from Harvey, which the number that we recommended approval of is, $8,362,000 which is about $13,000 underneath the budget of $8,376,982.

**Alderman Schoneman**
The budget that we had was $8,376,982. Did that include the roof originally?

**Alderman McCarthy**
When we had adjusted the price some time ago, we had pushed the roof repairs out because they are basically independent of the rest of the construction. There is some roofing that is being repaired because of the way the construction is being done. But there is some roofing that can be delayed that are not in the current budget price.

**Alderman Schoneman**
So we expect the actual project number... the $8,362,982 to be increased later by approximately $1.6 million when the roof is done?

**Alderman McCarthy**
It probably won’t be $1.6. We talked about what’s left in the other projects. There’s about $400,000 left over from the Broad Street project that we can move over to offset that cost. There’s also $150,000 left in the separate bond that we approved to do roof repairs district wide. So that would get us to about $550,000, which leaves us with somewhere in the order of $1 million. We will probably also not have to issue bonds for $1 million. That number includes a 10% contingency which is about $150,000. If all goes well we would never actually realize an expense for that money, so we wouldn’t end up issuing bonds.

**Alderman Schoneman**
So just for comparison, the $8,377 million did not include roof. And the number that we’re talking about, the $8,362,982 does not include roof either.

**Alderman McCarthy**
Correct.
Alderman Dowd
And that was part of the discussion..., that Mr. Farrington wants to get all those figures on one piece of paper, so it's easier to see.

ALDERMAN MCCARTHY MOVED THAT THE JSSBC CONCUR WITH THE RECOMMENDATION MADE AT THE CONSTRUCTION PROJECTS COMMITTEE MEETING EARLIER THIS EVENING.

SO VOTED.

COMMENTS BY MEMBERS OF THE PUBLIC
None.

COMMENTS BY COMMITTEE MEMBERS

Alderman McCarthy
I just want to point out that with respect to the bond, I have to talk to the Controller. But there was some discussion earlier this evening about using some of the School Capital Reserve Fund. And I think when we look at the bond, we need to understand where the payments occur. The way we do the bonds, they often don't have a payment in the first year that they're outstanding, or there's a single interest payment at the end of the year. So that we don't carry the total cost of the debt service in the first year. And understanding the issues that we have with cash flow in the budget this year, I'll talk to Mr. Frenette about how we can structure that. But one of the things we could do is issue the bonds and then pay the principal amount of the first year's bond payment out of the Capital Reserve Fund. It would give us the advantage of financing the project over years, but remove the cash flow from the first years. Admittedly there's a little interest cost there on that money we'd be doing that with, but it does solve the cash flow problem to get us out at least a year on the debt service payments.

Alderman Dowd
And with that roof work, we will be up to current code on the roofs. And I think people will feel more secure about their children in the school.

Mr. Hallowell moved to adjourn. So voted at 8:35 p.m.

Submitted by Jacki Waters
A meeting of the Construction Projects Committee was held at Nashua High North, on Thursday, April 23, 2015. Alderman McCarthy called the meeting to order at 7:04 p.m.

Present: Alderman Dowd, Alderman McCarthy, Alderman Melizzi-Golja, Mr. Mosher, Mr. Farrington
Also Present: Mr. Donovan, Mr. Smith, Mr. Hallowell, Mr. Bisson, Mr. Nikias, Mr. Brenner

This meeting can be watched in its entirety at: http://nashua.ezstream.com.
All documents referred to are available to view along with the minutes, at: Minutes Link

BROAD STREET ARCHITECT REPORT

Mr. Bisson
We just did a punch list on D wing. It’s moving very successfully. We have A and B wing, and the Library wing in the summer. The playground is out to bid. We may have some information on that at the next meeting. Otherwise, everything is moving quite well.

BROAD STREET CONSTRUCTION MANAGER'S REPORT

Mr. Nikias
We’re going to take advantage of school vacation next week. Reviewed upcoming schedule
We’re still on schedule, and I do have one Change Order for tonight. We’ve completed that office space for a while now and the staff has had a chance to use it for a time. They asked if we could set up their workstations a little better. Reviewed diagram of proposed workstation change

Alderman McCarthy
So this would be $3,000 out of contingency.

MR. FARRINGTON MOVED TO APPROVE CHANGE ORDER #21, IN THE AMOUNT OF $3,007.53.
SO VOTED.

Mr. Nikias
That’s really all I have tonight. We will have the bid information for the playground ready for you next time.
CONSTRUCTION PROJECT COMMITTEE MEETING

SUNSET HEIGHTS ARCHITECT REPORT

Mr. Bisson
The bidding is all coming in, and that will be partially summarized with the Construction Manager. We also have Keith Brenner here, who has an update on the structural analysis. We met with Harvey earlier today to brainstorm some of the remedial work that would take place.

Mr. Brenner
I’ve completed the analysis of every framing area in the building. The report will be issued next week. There are a lot of issues, costs and time that is associated with the projected work.

Displayed and large informational board, and reviewed all the information with Committee

Alderman McCarthy
So I guess the two questions are, do we have any idea of cost yet? And do we have any idea if the techniques we would look at could be done in the timeframes when we have wings available to us?

Mr. DuBois
The first thing we have to do is obtain a copy of what you’re seeing tonight. Then the week that school is out we can spend some time looking at these wings above the ceiling to see exactly what we’re dealing with. Sprinkler lines and that type of thing would probably be suspended from the bottom of the existing cords of the joist that are there. My concern is how much electrical is run through the joist, and how much data and all of that we’d have to disassemble and reassemble.

In terms of cost, I have to tell that by the time you’re done, I think we’re talking seven digits... I really do. How high, I don’t know yet. The complications that you’re faced with is, if you do it from above now you’re removing the desk, how you have existing casework and existing classrooms you’re going to try to protect from the elements to keep them as dray as you possibly can. It might be quicker... but it’s the risk of opening up an entire roof and how much you can get done. We also talked about the possibility of doing this from underneath, which certainly would be easier. The problem then is the cost implication of everything that’s attached and everything that has to come down. You might be into that anyway, if it’s running into the joist.

We really have to spend some time next week to see what we’re dealing with. My guess is that 40,000 square feet of this school is going to be affected. The one saving grace you have going for you is that we are already moving the ceilings, and all the lights. It’s the data lines, it’s the power feeds, it’s the sprinkler lines, etc. So the classroom wings would be a little easier to handle than the cafeteria.

Alderman Dowd
In your analysis, one thing you want to look at is if you did this entire school at one time. Would it be less expensive and easier to do if you did it all in one shot?

Mr. DuBois
The short answer is no. We talked this afternoon that obviously this would extend the overall construction sequence, because you’d have to do all the repairs before you could even consider renovating a wing. I think the cost of relocation of students, even if you had a spot... and I don’t know that you have a space available throughout the district. The wings are not the issue. The time is that you only have summer 6 weeks to work on things like the cafeteria, because you can’t get in there any other time. And even that low roof that houses art... that type of work you might be able to do during the year, but it would probably take you another summer to get through it.

Alderman Dowd
But my thought process is, if you worked throughout the year during the construction season, you’ve got a much longer period of time to do the work.
Mr. DuBois
But you simply can’t open the entire roof and go. And the gym and low roof between the gym and the cafeteria is another thing that would have to be done during the summer. I think the rest of it could be done during the normal cycle without affecting anybody.

Mr. Nikias
Our schedule in general works from the back to the front. So it’s 6 phases before we even get back to the Admin area. And the Admen doesn’t happen until next summer. So if you worked on all the phases as you went, next summer we would try to tackle that cafeteria area and surrounding areas.

Alderman McCarthy
In terms of closing the whole thing and doing it all at once... our experience is that doing a small piece first makes the rest of it go better anyway. So I’m a little worried... I’d want to do that back wing first, to see if anything goes wrong.

Mr. DuBois
It comes down to efficiency and the amount of labor. It’s more labor than material that’s going to run the number up. So what the quickest, fastest and easiest way to do that... that’s what we’ve got to explore.

Alderman Dowd
Is that section right there the most critical to fix?

Mr. DuBois
Yes.

Alderman Dowd
So should we be looking at the work on that this summer? Otherwise, the way we’re going, at some point next winter this is going to be as is right now. And how much snow can you put on the roof before you have to close the school anyway?

Mr. Brenner
You’re correct. In my opinion that is the most important thing to address now, if possible. But I also want to point out that if we don’t do any reroofing or adding insulation to these roofs, code does not require you to upgrade the structure of the roof. I mean it makes sense to do it, and it’s a safety issue. But I want to be clear that if the code’s not forcing you to do this, you can remain status quo and continue the shoveling program. But that has its pitfalls as well.

Alderman Dowd
If this were a warehouse I might agree. But this is a school.

Mr. Brenner
I just want you to be aware of all the code implications of it. It’s grandfathered per se, like a lot of other buildings.

Mr. Farrington
Clearly there are a couple of more pieces of information we need, like the cost and how long it will take. When you deal with electrical or whatever, is there a time frame window that they agree that they’ll be on the property?

Mr. DuBois
We’re in the process of vetting out the bids we received this week and getting ready to prepare our GMP. None of the documents to date reflect any of this. So all of this would be above and beyond. I suppose we’re going to need a discussion on whether we put everything on hold until we figure what’s going on here, or do we still move forward with the game plan, present a GMP and then come back with an amendment to do whatever you folks decide to do. Some of it, part of it, all of it, none of it... I don’t know. Because we’ve awarded the site work, the mechanical, plumbing and HVAC, the abatement. So we’re trying to get ready, assuming this is going to move forward this summer. The goal prior to this was to present to you a GMP and a contract at the next meeting, seek a number of subcontract releases and awards, so we could get the foundations going this summer, etc.
Mr. Farrington
So if we decide to do this, whether it’s done above or below it needs to be done before you do the...

Mr. DuBois
Oh absolutely.

Mr. Farrington
We clearly don’t have enough money to do it within our budget.

Mr. DuBois
Correct.

Mr. Farrington
So given the required sequence to fix it and the amount of money required, we kind of need to know if we’re not going get the money... we have to know whether to stop this project, right?

Mr. DuBois
That’s what I was getting at. Do we still move forward on the original premise of where we’re going? Because there’s plenty of work to do this summer.

Alderman McCarthy
The first time we actually see an issue that is different, if we’re going to fix the roof, is when we go to do the outer most wing.

Mr. DuBois
Our schedule and phasing plan shows the top back wing being done this summer. And preparing the gymnasium with the temporary classrooms, and we would have the entire back wing box up and vacant their classrooms. So we’d have the top half done, and come September the bottom half would be started... in order to make the original 16 month schedule. Now that’s going to change should you decide to move forward with the repair.

Alderman McCarthy
But I think if we assume we’re going to do the other work regardless, then nothing would change about the current schedule until September.

Mr. DuBois
No, no... in the end of June, July and August we’re doing the top classrooms on the back wing.

Alderman McCarthy
I see,

Mr. DuBois
But the whole schedule is going to change. And we’re not going to start that until we have a solution and everything in place. We’re not going to get through this school as we did with the last four, in 16 months.

Alderman Dowd
When are we going to have the final plan and cost estimate for the roof work?

Mr. Brenner
If you recall, the way we set up this work is kind of a phased effort. The phase 1 proposal that I gave you folks this week was just to do the analysis and come up with some options and talk with them. To do the actual design and produce documents would be in addition to that. This was just a study phase.

Alderman Dowd
So how long is it going to take you to come up with a design, and then how long after that to come up with pricing? Are we talking about months? Weeks?
Mr. DuBois
From our end, it would be at least two weeks to bid it and get it slotted for subcontractors to look at it. So I’d need at least 2 weeks and a few days to pull it together.

Mr. Brenner
It would take more than a few weeks. I would have to get a proposal to you folks and get that approved, and then get started with the work. It is a lot of repetitive work, which is good. But it’s pretty significant work and will take some time... and then produce documents for these guys to get accurate pricing on it.

Mr. Hallowell
You said seven figures, which I’m pretty confident will hold true. But how many multiples of seven figures will it be?

Mr. DuBois
I don’t know that yet.

Mr. Hallowell
Because I’m with Mr. Farrington... when do we get to a point where this is what we will do with some other upgrades? But it won’t look anything like what we thought we were going to do. Particularly if you’re looking at a schedule of probably two months before we really know what a number is.

Mr. DuBois
On this? Yes. I can get you a ballpark, but it would be a ballpark. If we looked at the wings, then we could put a factor to what we thing the rest of this would be.

Mr. Hallowell
So the report we’re going to get from you... I’m not excited about using the Grandfather clause.

Alderman McCarthy
If we’re going to have a report next week, when will we have a proposal for what it will cost to do the design?

Mr. Brenner
I could probably have that as well next week.

Mr. Smith
The next meeting is May 7th.

Mr. Brenner
Do you need it before then?

Alderman McCarthy
Oh yes. The question is, does it slow anything up if we don’t approve that until May 7th.

Mr. Smith
I think Carl indicated he could at least come up with a lag by May 7th. And then if it’s approved they can go ahead... and then how long to come up with recommendations? A month?

Mr. Brenner
That sounds about right for the final design and drawings.

Mr. Hallowell
Can we at least entertain the notion of some sort of snow removal or snow reduction system on the roof? Does such a thing exist? I just think that when we’re starting to get into number that are multiples of millions, some things don’t seem quite as ridiculous as they might first seem.
Mr. DuBois
Thinking outside the box you might come up with a solution. Nothing comes to mind. I have seen heat belts put on the edges of roofs. They have a lifespan. But I haven't seen anything that would melt the snow on an entire roof.

Mr. Brenner
I agree with that. In fact I've researched over many years how to do that. And if I had figured it out, I would be a rich person, because there's a great need for that. But as far as I know, there's nothing that exists.

Mr. Hallowell
So the 4 foot overhang seems very long. Is there a purpose for that?

Mr. DuBois
Shading. It's going to be a complicated solution. It's going to boil down to what's the fastest repair. Because it's going to boil down to labor. It's the labor, not the materials that's going to get you. In order for you folks to really weigh in on this we've got to get you some more information. And we just got this report 2 hours ago. Next week we'll spend some time in the school and do some homework so we can get you some idea of where it's going. Don't hold me to that though until the design is done and everything is uncovered. This is a lot of things to contend with in everything we're doing... even with protection.

Mr. Mosher
We're talking about the snow loads. I've done some calculations before and 1 cubic foot of water is something like 62 pounds. And then when you consider loads on these rafters, if you get 2-4 feet of snow on there and it gets saturated by rain, that weight goes up dramatically. Also, underneath what do they have attached to the whole thing? Thinking about all the weight that's on these things... thinking about safety is paramount and we're getting to the limits of what these timbers can carry. I'm with Bob about thinking of ways we can mitigate the snow on the roof. We had a lot of ice, snow and weight this past winter. And God forbid we can't get up there to shovel the snow off if it freezes up with ice. So we have to look at something structurally that will preclude any problem like that. If we're going to continue with that school, we have to consider that it's going to cost more. This is an unforeseen circumstance that we're looking at now. And we have to make some bold move to ensure the safety of this school. We have to take a long hard look at this and see where we're going to go, and make sure we have the resources to do it.

Alderman McCarthy
I want to just fix the roof. We can talk about solutions for the now. But frankly in the long run, if any of the solutions we have, have an operational component to them that cost money, we wind up in the hole at the end of it. If we do that we're not going to be able to increase the insulation of the school if our numbers are different by $50,000 a year for energy savings for example, or if we lose the opportunity to save $20,000 and we spend $30,000 operating a system, we're behind on seven figures at the end of 20 years. Plus, we don't have a great track record for keeping up with those operational things. And the times you don't keep with those things are exactly the times when things are going really bad with the weather to begin with.

So, I don't want to spend money on it, but I want to understand what the best passive solution to this problem is. I'm concerned about, what's the sequencing, what's the minimum amount of damage we can to the existing mechanical systems while we're replacing it... It would be a big plus if we didn't have to take the top off the school. But I wouldn't rule that out, if we're going to replace the roof anyway. Basically there's the question of how fast you can get the decking back on it once we get the structural numbers in.

Mr. DuBois
Correct.

Mr. Hallowell
I guess one thing we might consider... I'm assuming there's some sort of sensors we probably could put on the roofs that would give us what the actual load is. Right now we look at the snow to see how deep it is. Are there sensors that allow you to measure the load over a wide enough area that it matters?
Mr. Brenner
Yes and no. There are strain gauges and sophisticated things like that that you could put on there. But it involves cutting the actual framing and installing some devices in there. And that’s only going to give you the reading of one piece of framing in the building, which may not represent the majority of what’s going on. Measuring the snow, as archaic as that sounds, is a pretty good indication, and a pretty easy method. Another method that we’ve used… stress is related to deflection, the sag of the joist. So we can take measurements of when there’s no snow on the roof and monitor when there is snow on the roof, how much deflection is happening. That gives you an idea of how much stress is in the members. So there are some simple measures of doing that. But if the snow is 3 feet and it takes 3 hours later to take a measurement, it could be too late by then.

Mr. Hallowell
I guess I was just thinking that this winter, I don’t think we had any idea what our snow load was even though we had snow depths that were pretty deep. Because the snow was dry.

Mr. Brenner
I can give you some idea if you’re interested. I’ve done a lot of actual testing of roofs. We’ll go out to schools and actually cut in place several cubic feet of snow, and get actual weight. Then compare that to what we use for design values. It matches up pretty well. It’s pretty accurate when we say it can hold 2 feet of snow, for instance. But I also did measure this year some of this light snow we’re talking about. Usually snow density is about 20-25 lbs. per cubic foot. This light snow was coming in at 8-10 pounds per cubic foot, which is lot less than the design capacity. So if you’re good for 2 feet of heavy snow, you can take 3-1/2 foot of this light stuff.

Mr. Hallowell
I’m saying if we assumed worst case this year we would have spent $300,000. So we were putting some factor in there to say we know it’s really light snow.

Mr. Brenner
Correct. It’s a judgment call.

Alderman McCarthy
Alright. So we’ll look forward to seeing the report.

Mr. Farrington
I have one question. Given the fact that this is going to extend the delay of getting started with the substantial construction, and there’s a question about how much money we would have… is there a way that the project could be changed and tied into what the bond was specified for and not do the wings? Just do the right half of that portion up there and get that done? Because that seems to be where the worst problems are with the roofing. And just focus on that one area and get it done before the proverbial snow flies?

Mr. DuBois
Yes that’s a real possibility. That would be nice, because again you don’t want to do that during summer vacation. By all means, that’s not out of the realm of possibility.

Alderman McCarthy
Are you talking about permanently de-scoping the wings?

Mr. Farrington
No, just putting them off for another winter. It seems clear to me that everything’s going to be later getting started because of this.

Mr. DuBois
What’s going to delay is that first wing. That’s the delay. I don’t think there’s any need to close the school down. But you’ve got to understand that all of this can be done with an extended construction period, and none of it would be done before the snow flies this year. You can’t get it all done. That would be impossible, even if you emptied the school. So I don’t think the school department has to go to that extent. You just have to understand that if we get another winter like last year, you’ll be shoveling again one more season.
I will also point out to you that based on the square footage and roof replacement cost that I’m seeing for this building, you’re in the $700,000 to $800,000 range. So you’re not going to go put in good money and not fix this, and then go up and shovel and snow blow it and end up with $20,000 to $30,000 of patching and repairs on a brand new roof that you’ve put down, because your warranty is going to be voided.

So all of these things you have to take into consideration during your decision making. But I think we owe you an order of magnitude with some semblance of what we think it’s going to cost while the engineering keeps moving forward. But I think between now and the next meeting I would ask you, because we’re going to present our GMP, do you still want to keep the project moving forward in the way it’s been design to prior to this?

Alderman McCarthy
I think we want to see those estimates. The other thing I’d like to see is a rough cut schedule with worst case, with this thing.

Mr. DuBois
We can work on that for you. You do need information to make a decision.

SUNSET HEIGHTS CONSTRUCTION MANAGER’S REPORT

Mr. DuBois
We’ve got the subcontractor and vendor bids and are now looking at it to make sure we’ve the scope the way we need it. We’ll formulate the GMP and present it you on the 7th.

Alderman McCarthy
Given the time and that we have people waiting, we can just deal with the invoices at Joint Special.

Mr. Smith
Also, with the invoices, we have a small contract for boxes. And there’s one other attachment I’ve put in the package is the VE schedule, and I took a stab at trying to prioritize the different projects that were either alternates or taken out of the project to reduce the scope to get closer to the $9 million total.

Alderman McCarthy
That one is probably better to talk about next time.

Mr. Smith
So for the boxes, I got two quotes and I’m looking for 2,000 boxes and packing table. Aegis Container was the lower of the two at $2,445.

ALDERMAN MELIZZI-GOLIA MOVED TO APPROVE THE CONTRACT WITH AEGIS CONTAINER FOR 2,000 BOXES AND 5 CASES OF PACKING TAPE AT A COST OF $2,445.

SO VOTED.

Mr. Farrington moved to adjourn. So voted at 8:25 p.m.

Submitted by Jacki Waters

A meeting of the Construction Projects Committee was held at Nashua High North, on Thursday, May 7, 2015. Alderman McCarthy called the meeting to order at 7:05 p.m.

Present:        Alderman Dowd, Alderman McCarthy, Alderman Melizzi-Golja, Mr. Mosher, Mr. Farrington
Also Present:   Mr. Smith, Mr. Hallowell, Mr. Ouellette, Mr. Nikias, Mr. DuBois

This meeting can be watched in its entirety at: http://nashua.ezstream.com.
All documents referred to are available to view along with the minutes, at: Minutes Link

BROAD STREET

Mr. Ouellette
Good evening, I’m Jamie Ouellette from Harriman. Broad Street is progressing well. We just punched out the D wing and I believe are occupying as of yesterday. And they’re moving A and B wings out so Harvey can get in there shortly to do the demo. Everything is going smoothly. I believe Harvey did see a price back on the playground and will address that tonight.

Mr. Hallowell
At some point we had talked about a concern with the mill work for cabinets they hadn’t replaced for about $40,000. Whatever happened to that?

Alderman McCarthy
We put that off because of the budget issues at Sunset Heights.

Mr. Hallowell
I haven’t cleared this with anyone else on the Board, so I’m just brainstorming... but if we wanted to finish that, just so it’s done, would we be able to take money out of our School Capital Reserve Account to have them do the work while they’re there?

Alderman McCarthy
It would require approval from the BOA to do that. But it could be done. I want to make sure we can put a roof on Sunset Heights first.

Mr. Hallowell
I understand.

Alderman McCarthy
Do we have action we need to take on Broad Street?

Mr. Ouellette
Yes, you have before you Change Order #022, which is for the playground relocation that we’ve been talking about through the winter. I think we were expecting it to come in around this dollar amount. The surface itself was competitively bid out. UltraPlay was the low bidder by $3,000.

At this point we’ve 6 weeks from summer, and we’re looking for direction on whether or not to proceed with this. Dan’s not here, but in speaking with Shawn, the numbers that he had thrown out earlier as potential funds to be transferred from the Broad Street job to this job, were not including this money. So all along from his perspective, this was something he was thinking we were going to go forward with.
CONSTRUCTION PROJECT COMMITTEE MEETING

May 7, 2015

Alderman McCarthy
So the money for this was actually left in the budget for Broad Street in the numbers that we looked at?

Mr. Ouellette
Yes, I think we had in the neighborhood of $400,000 potential transferred to Sunset, and this was accounted for and not in the $400,000 number.

Alderman McCarthy
And we think we had about $100,000 left in the budget to do this at that point?

Mr. Ouellette
Yes.

ALDERMAN DOWD MOVED TO APPROVE CHANGE ORDER #022 FOR THE PLAYGROUND RELOCATION AT BROAD STREET FOR $100,169.89.

SO VOTED.

Mr. Ouellette
That’s all we have on Broad Street. We are on schedule and everything’s going fine.

Alderman Dowd
Do we know anything more about what’s going on with the Jersey Barriers?

Mr. DuBois
Nope.

Mr. Farrington
In that regard, is there any plan to do any Jersey Barriers?

Alderman McCarthy
It’s not in the scope of the project, basically. It was not required of us to do any outside improvements by the Planning Board.

Alderman Dowd
And as I understand from some of the discussions, it’s not on School property, so it would not be a school project.

Mr. Hallowell
Forget about who’s paying for it for a moment, is it your belief that there doesn’t need to be a barrier there?

Alderman McCarthy
There never was a barrier there, and the terrain hasn’t changed. There’s certainly nothing that would have caused us to necessarily put in a barrier.

Mr. Hallowell
The reason I asked is because I’m tempted to request that we have the barriers removed.

Alderman McCarthy
I can ask that.

Mr. Hallowell
I understand a little bit why there’s a concern, but I’m not that concerned about it. And we’ve just made this beautiful reconstruction of this building, and it has these ugly concrete barriers like we’re in New Jersey.
Mr. Farrington
So since it’s not on our land, if someone was to make the decision... whoever that is, that there be a barrier there they would get to make the decision of what it is... whether it’s a metal barrier or whatever?

Alderman McCarthy
Yes. And the decision would be a galvanized guardrail because that’s what’s cheapest.

Mr. Farrington
I understand.

SUNSET HEIGHTS

Mr. Ouellette
We issued our drawings out for bid to Harvey a couple of weeks ago. We finished the structural report and I’m guessing that Shawn sent that out to everyone. It basically outlines what Keith Brenner had stated. And from that we made a proposal and stated that for the design of the structural roof upgrades. Read the proposal dated April 30, 2015 for the next phase of the design for structural reinforcement.

ALDERMAN DOWD MOVED TO APPROVE ENGAGING HARRIMAN TO DO THE SUNSET HEIGHTS ROOF STRUCTURE DESIGN IN THE AMOUNT OF $7,200.

SO VOTED.

Mr. DuBois
You asked for an order of magnitude, so let me take you through this. Your first sheet is a tabulation sheet, which is a summation of our findings. The consensus is that there appears to be adequate room to do all of this... 99% of it through the inside and not the outside. The only portion we felt had to be from the outside is the extension of the roof to the cafeteria. Reviewed the analysis with Committee.

So after spending the afternoon and letting everyone do their thing, what we’re looking at here is approximately $1.657 million. Now keep in mind that also includes doing the roof over, of all the existing building which equates to $690,000. So it’s still about a $1 million structural upgrade in order to do all this work.

Chris and I spent a fair amount of time looking at our phasing schedule that we prepared already, and what we can do. If we play this out, tonight you authorize Harriman to get going with the structural design and repair that needs to get down. And that’s about 4 weeks’ worth of work. So at this time in June, we’ll have the actual documents that I can put on the street for pricing. My goal would be that at the June meeting we would present our hard fast number to do all this work.

Then, we’re already into June and the kids are out of school. I don’t have steel ordered at all yet. If you recall we were going to start that last wing this summer. We actually looked at the phasing schedule and will provide you with a revised schedule. Instead of doing the back wing, we may move it up one wing, because there are no structural repairs to 2-3 of the classrooms. Reviewed diagrams in paperwork.

So the job won’t be completed by August 2016. I think we’re going to go out to fall for some areas, in order to get through this. So you can see that I’ve added 5 months of overhead to be out there that much longer. Resumed review of paperwork.
Alderman McCarthy
If we run into asbestos in the ceiling, what do we think the number is?

Mr. DuBois
That’s all weight. It’s the cost of the disposal. If the City could take it that would certainly help us.

Alderman Dowd
We own our own dump.

Alderman McCarthy
But I don’t know that we’re currently tipping anything hazardous.

Mr. DuBois
Exactly.

Alderman Dowd
At what point do you think that we would have a solid enough number for us to go forward?

Mr. DuBois
Four weeks from now we’ll have the repair drawings that I can put on the street. I’ll have a number to you approximately at the end of June. Chris and I were basing it on having us keep going. But I know you have the bonding cycle you have to get through. The longer that goes on, the more delay on the actual start of the renovation of the school.

Alderman McCarthy
This potentially has a $150,000 impact on next year’s budget, which is going to be the subject of heated debate over the next two months.

Mr. DuBois
I appreciate that.

Mr. Farrington
How confident are you going out to bid in mid to late June, that there are people out there that are going to be available to do this?

Mr. DuBois
I reached out to three firms to help me and I got one. Everyone is extremely busy out there now. It’s a tough time to be bidding anything. I’m sure we could secure 2-3 numbers.

Mr. Hallowell
The roofing number in here was not in the original scope. You’re doing this because you have to do the other things. So, we bonded money for roofing. I think we might have approved those contracts, and I seem to remember that there was some money left over.

Mr. Donovan
Yes. At this point in time the bond was for $1.5 million for the roofs, and I think we approved about $1.3 or $1.35. So there’s about $150,000 left, assuming that work that’s going to be done this summer gets done for those prices... which it should.

Mr. Hallowell
I don’t know to what extent we can move money from that into this, if that helps at all.

Alderman McCarthy
We can, and it certainly helps the overall bid picture.
Mr. Hallowell
And while I would prefer not to do this, we do have a School Capital Reserve account which does have money in it. If it’s on the order of $1 million, that’s about half of what we have left. And there’s no plan by the City to replenish our School Capital Reserve account. So if it helps logistically, I would think that would be an easier vote for the BOA than the bond.

Alderman McCarthy
I think I would rather propose that we float the bond, and if necessary pay the first year’s principal back out of the School Capital Reserve fund. What we don’t want to do is bond the interest on something else. So I would bond it and take from the Capital Reserve fund enough cash to pay the principal portion of the first year’s payment.

Mr. Hallowell
Okay. I’m going to trust you on that one. I’m not really sure why that helps. I kind of get why that helps...

Alderman McCarthy
Because there are two different things… one is the long term indebtedness, which is not a huge problem for us at this point; and the other thing is the money that comes out of this year’s budget for debt service, which is a big problem.

Mr. Hallowell
Well, which means if it’s that small a number it could potentially just be the money that’s in the roofing.

Alderman McCarthy
What I would suggest is we transfer whatever’s left in the roof bond… although it’s also going to depend on the bond rates. I’ll talk to Finance about that. The roofing… can we do the structural repairs and not do the roofing at the same time?

Mr. DuBois
Oh, absolutely. The roof could be deferred and done 2-3 years from now. In the GMP we have all of the new roofs covered, for the additions.

Alderman McCarthy
So we could fix the structure, delay the roof for a year or two, and that would reduce the number that we have to approve right now to about $1 million.

Mr. DuBois
Yes, absolutely. There would be some minor cost for all of the new penetrations, etc. but that wouldn’t be anything near what you’re looking at here.

Mr. Mosher
If you were to bid out in June, how soon would you expect to get the response on those bids?

Mr. DuBois
If we were to get a package in early June, which I’m hoping… we would need a minimum of 3 weeks, and pull it all together by your late June meeting. We can’t afford to wait until July.

Mr. Farrington
If we delay the roofing for a couple of years, we don’t know exactly how much more it would be or how many people will bid, etc. But with those things aside, are there some built in costs just by splitting the job up in two parts?

Mr. DuBois
If I was to guide you tonight, I would say to account for about 5% a year, as a safe measure. And you don’t have to bring us back for that. Shawn and Dan can certainly put that out on the street as a package.
Mr. Farrington
But it seems we should expect some cost to delay it.

Mr. DuBois
They'll be escalation of cost for materials and labor. But no one knew you would run into this situation.

Mr. Hallowell
If we had the school empty, does that significantly change your schedule or cost?

Mr. DuBois
We're talking a 5 month extension to do it the way we are. And you're talking $170,000. You'd be looking at
relocating 300+ students, staff, changing bussing... I'm not sure the mathematics would work out to say that that
would actually be faster and easier. By all means we wouldn't have to do it one wing at a time. But I'd really have
to study it to say what your real costs would be. And where would you put 300 students? It does impact us from an
initial start. Because it's one of the first things that has to happen.

Alderman McCarthy
But that wouldn't change if the school were empty.

Mr. DuBois
Exactly. In closing, I think it's a fair number. I'd like to think I got you in the ball bark you need to be. Just keep in
mind there's a number of rooms we couldn't get into, but I'm hoping with a contingency and what I'm seeing, I've
got you covered.

Alderman McCarthy
Okay. So moving on, what else do we have to do?

Mr. Nikias
We do have the GMP tonight, and then we've got 9 sub contractor awards that we're trying to go forward with.
It's just good to note right off the bat, that the GMP that we've prepared is like $10,000 under budget, and all of the
numbers in the awards are in the GMP as sub contract values. So at this point these match.

The first award is for Electric. We invited 4 companies and had 3 bidders. Stellos Electrical is our low bid with
$991,210. This value is for the base bid and excludes all alternates.

ALDERMAN DOWD MOVED TO AWARD THE ELECTRICAL WORK FOR SUNSET HEIGHTS TO STELLOS ELECTRIC, IN THE AMOUNT OF $991,210.

SO VOTED.

Mr. Nikias
The next award is for Fire Protection. We got 3 bids on this trade. Hampshire Fire Protection was the low bidder.

MR. FARRINGTON MOVED TO AWARD THE FIRE PROTECTION WORK FOR SUNSET HEIGHTS TO HAMPSHIRE FIRE PROTECTION, IN THE AMOUNT OF $40,800.

SO VOTED.

Mr. Nikias
The next award is for Reinforcing Steel Supplier. We had 4 bidders, and the low bidder was Rebars & Mesh in the
amount of $12,579. This value is for the base bid and excludes alternate #1.
MR. FARRINGTON MOVED TO AWARD THE REINFORCING STEEL WORK FOR SUNSET HEIGHTS TO REBARS & MESH, IN THE AMOUNT OF $12,579.

SO VOTED.

Mr. Nikias
The next award is for Foundation Form / Flatwork. We invited 10 subcontractors and got 2 bids. Premier Concrete is the company that did the Broad Street for us, and is the low bidder.

MR. FARRINGTON MOVED TO AWARD THE FOUNDATION FORM / FLATWORK FOR SUNSET HEIGHTS TO PREMIER CONCRETE, IN THE AMOUNT OF $104,000.

SO VOTED.

Mr. Nikias
The next award is for Structural Steel. We had 3 bidders. S.L. Chasse Steel is our low bidder, and is the company who did the last job, also.

ALDERMAN DOWD MOVED TO AWARD THE STRUCTURAL STEEL WORK FOR SUNSET HEIGHTS TO S.L. CHASSE STEEL, IN THE AMOUNT OF $215,000.

SO VOTED.

Mr. Nikias
That takes you through what was in your packet. Then there was a subsequent email sent out looking to get approval on a few more trades.

For Masonry we received 3 bids. We’re recommending the low bidder, McEntee Masonry Contractors for $227,950.

ALDERMAN MELIZZI-GOLJA MOVED TO AWARD THE MASONRY WORK FOR SUNSET HEIGHTS TO MCENTEE MASONRY, IN THE AMOUNT OF $227,950.

SO VOTED.

Mr. Nikias
The next award is for Millwork. We invited 4 companies and received 2 bids. We’re recommending the low bidder, Aubin Woodworking for $205,582.

ALDERMAN MELIZZI-GOLJA MOVED TO AWARD THE MILLWORK FOR SUNSET HEIGHTS TO AUBIN WOODWORKING, IN THE AMOUNT OF $205,582.

SO VOTED.
Mr. Nikias
The next award is for Glass and Metal Panel work. We’re recommending the low bidder, Marvell Glass for $489,150.

ALDERMAN MELIZZI-GOLJA MOVED TO AWARD THE GLASS AND METAL PANEL WORK FOR SUNSET HEIGHTS TO MARVELL GLASS, IN THE AMOUNT OF $489,150.

SO VOTED.

Mr. Nikias
The next award is for Audio Visual Systems. We’re recommending the low bidder, Pro AV Systems, who did the last school, for $127,000.

ALDERMAN DOWD MOVED TO AWARD THE AUDIO VISUAL SYSTEMS WORK FOR SUNSET HEIGHTS TO PRO AV SYSTEMS, IN THE AMOUNT OF $127,000.

SO VOTED.

Mr. Nikias
With what we approved at the last meeting and this meeting, we’re at approximately $5,644,000 of the $8.3 million GMP. So we’re well underway. We’re going to work hard to try and present the rest of the job at the next meeting. We are still seriously behind trying to get this all done for the summer.

So the only other item is the GMP. We can certainly go over that tonight if you’d like.

Alderman McCarthy
Do we need to do that tonight?

Mr. Nikias
Well the only thing, is internally we’re trying to set the budget and write contracts. And in order to do that we need to establish this dollar amount and make sure everyone’s comfortable with it.

Alderman McCarthy
What’s the bottom line number of the GMP?

Mr. Nikias
This GMP is for $8,362,000. The current total budget for the Sunset project was $8,376,982. That was a combination of the Construction Manager’s number and the projector system, the audio visual that we just awarded.

ALDERMAN DOWD MOVED TO APPROVE THE GMP OF $8,362,000.

SO VOTED.
Mr. DuBois
What I just presented to you is the backup to the alternates that are in the contract. There’s an Exhibit E called Alternates. That’s how we arrived at those alternates. That’s what’s in front of you. We are have a time element on this, so we’ve slated June 30th to get through this.

Mr. Nikias
If you look at that list of alternates there are 3 that are included in the GMP. The window treatments, the music room carpet and the toilet rooms. You can see that there’s listed as Alternate D Ducts. So those are actually included in the current GMP Contract.

Alderman McCarthy
We should probably run through the other alternates, but not this evening.

Mr. DuBois
That’s fine. I think if we can move on those in the June meeting, we’ll be okay.

Mr. Nikias
Dan, do you want to talk at all about the money that will be left over from Broad that could potentially cover the fire lane added cost?

Mr. Donovan
Well, I think we were estimating it to be about $250,000 of the contingency that would be available... and then whatever’s left of your contingency.

Mr. Nikias
I think the combined total of the two at this point is about $400,000.

Mr. Donovan
Yes.

Mr. Nikias
I think we could potentially do the fire lane for under $400,000 from those funds, if that’s that you decide.

Mr. Farrington
For our next meeting can we get all of these little pieces of money that we have on one piece of paper? And Mr. Hallowell had brought something up that I had thought about... looking at our Capital Reserve to complete the project. I think I’d like to have that discussion, because I’d like to find a way not to break this project up over 2-3 years. I’d like to get it done.

Alderman McCarthy
Yes, we can take a look at that.

Mr. Donovan
I’ll put together the various funds available.

Mr. DuBois
I do want to say on behalf of Harvey, and I’ll extend that for Harriman... thank you folks for tonight. I know this wasn’t a scheduled meeting, but it really helps a great deal to get things moving. So thank you very much.

Mr. Farrington moved to adjourn. So voted at 8:20 p.m.

Nashua, NH 03062

Dear Mr. Smith:

At the meeting of Thursday, May 7, 2015 the Nashua City Planning Board approved the above-referenced Conditional Use Permit.

A copy of the approved conditional use permit is available for your records in our office. This copy will be retained for one month only. Issuance of any building permits within the statutory 30-day appeal period, as stated in RSA 677:15, is at the sole risk of the developer should action by a court of competent jurisdiction be forthcoming.

If you have any questions about this letter or your responsibilities, please contact Linda Panny at 589-3110. You are advised to work closely with your consultants to submit any documents and final plans to the Planning staff in a timely manner. The Nashua City Planning Board and staff appreciates your cooperation throughout the review process.

Sincerely,

Roger L. Houston, AICP

Re: SITE PLAN REVIEW: Sunset Heights Elementary School - City of Nashua (Owner)  

Dear Mr. Smith:

At the meeting of Thursday, May 8, 2015 Nashua City Planning Board approved, with modifications, the above-referenced Site Plan. The project must be developed consistent with the specific plan prepared as modified by the following findings, conditions and/or stipulations:

1. The request for a waiver of NRO § 190-279(B), which establishes a minimum plan scale, is granted, finding that the waiver will not be contrary to the spirit and intent of the regulation.

2. The request for a waiver of NRO § 190-184 (D)(1), which requires a landscaped median for every ten interior parking spaces, is granted, finding that the waiver will not be contrary to the spirit and intent of the regulation.

3. Prior to the chair signing the plan, all comments in the memo from Jeanne Walker, P.E. dated April 17, 2015 will be addressed to the satisfaction of the Engineering Department.

4. Prior to the chair signing the plan, all comments in the e-mail from Cynthia Bautista, Fire Marshal dated March 26, 2015 will be addressed to the satisfaction of the Fire Department.

5. Prior to the chair signing the plan, all minor drafting corrections shall be made.

6. Tree cutting along the fire lane to be minimized with trees being flagged.

7. Required sidewalk from current pedestrian walkway out to Osgood Road.

A building permit must be issued by the Administrative Officer or the use must be established within twelve (12) months from the date of site plan approval. Failure to secure the required building permit for this site plan within twelve (12) months from the date of approval shall render this site plan approval null and void and a building permit shall not be issued per Section 190-146(c) of Nashua Revised Ordinances.
A copy of the approved site plan is available for your records in our office. This copy will be retained for one month only. Issuance of any building permits within the Statutory 30-day appeal period, as stated in RSA 677:15, is at the sole risk of the developer should action by a court of competent jurisdiction be forthcoming.

If you have any questions about this letter or your responsibilities, please contact Linda Panny at 589-3110. You are advised to work closely with your consultants to submit any documents and final plans to the Planning staff in a timely manner. The Nashua City Planning Board and staff appreciates your cooperation throughout the review process.

Re: Sunset Heights Elementary School (the "School")

Dear Mr. Smith:

Greetings! It was nice to meet with you at the hearing last week. As I understand how we are to proceed, you will direct somebody to tag the impacted trees and schedule a follow up meeting with residents, namely Mr. Yanco and me. If I am not in attendance at that meeting, it means that I did not receive notice of any such action. You can direct your notice to my office at closings@jk9.com. Talk to you soon. Thanks for your time; you can telephone me any time you want: 603.860.8339.

If you have any questions, please do not hesitate to contact me, e-mailing me at jk@jk9.com is the recommended method of communication it gets to my attention quicker; when leaving a voicemail, please leave your telephone number, without it there certainly will be no return call.

Very truly yours,

James Kaklamanos

RE: Recommendation of Award – Acoustic Ceilings & Wall Panels Subcontractor
Sunset Heights Elementary School
Nashua, NH

Dear Shawn,

Harvey Construction is seeking approval to award the Acoustical Work for subject project to Granite State Acoustics, Inc. for the total amount of Ninety Nine Thousand Nine Hundred Dollars ($99,900)

This value is for the Base Bid and excludes all Alternates. If at a later time the city decides to accept the alternates a change order can be written to the subcontractor for the value identified on the attached scope review sheet.

This award is based on the attached cost proposal and our bid tabulation spreadsheet.

Sincerely,

Chris Nikias
Project Manager

I hereby authorize Harvey Construction to enter into a contract agreement with the aforementioned subcontractor/supplier on behalf of the Nashua School District for the amount stated above.

Subject: Sunset - Acoustical Wall Panels & Baffles

John,

I got your pricing yesterday for the added cost to install 20 EA 4’x8’ acoustical panels in the GYM.

Attached is the approved submital of the product we have been using in all 3 of the other schools we did in Nashua (Conweed Acoustical Wall Panels-Respond Resist).

I need a price for these. I believe they are less expensive than what you priced.

The baffles you need to reinstall are all Conweed product also and there are 16 of them.

Lastly can you confirm that you have Ceramaguard tile 608 were shown?

Hutter Construction
810 Turnpike Road
New Ipswich, NH

ATTN: Joe Pollock

PROJECT: Sunset Heights School, Nashua, NH

PROPOSAL:

1. Furnish and install acoustical tile ceilings per the following:
   a. 18,000 square feet of 2x4 Armstrong #755 or Equal in a white 15/16 grid system.
   b. 862 square feet of 2x4 VinylRock or Equal in a white 15/16 aluminum capped grid system.
   c. 31,500 square feet of 2x4 Armstrong #755 or Equal in a white 15/16 grid system. This material will be going in the sloped classrooms.
   d. Alternate: Approximately 900 square feet of white 1" Tectum panels installed. Wood Trim and blocking for Tectum by others.

   The School will be occupied during some of the work, but the areas in which work is occurring will be unoccupied and accessible with baker staging. Portions of this work are in 2015. The majority is in 2016. Prices are projected assuming material for 2016 work can be purchased in Q1/16.

2. Unless otherwise stated, proposal does not include caulking or acoustical sealant, demolition or patching, repairs due to demolition, shop drawings, Davis Bacon or prevailing wage rates, seismic requirements (C, D, E, or F), preformed closers to match perimeter moldings, painting cut tiles at edges of walls, or plasring. We do not provide hanging wires for other trades. It is presumed that areas will be free and clear of all furnishing and/or fixtures, are unoccupied, and accessible with baker staging.

3. Overtime and/or Premium time is included for our scope of work to meet the job schedule. Overtime or Premium time due to delays caused by others or by circumstances beyond our control is not included.

4. General Contractor to provide water, heat, electricity, ventilation, dumpster, any permit or police details that may be required, proper access for loading, two means of entry/exit to the building, as well as any costs which may result from union activities.

5. Due to current fluctuation in prices, Optimum Building Systems and Management will guarantee this price for 30 days.

Bid Price: $126,790.00
Tectum Add-Alt: $12,490.00

RE: Recommendation of Award – Air Vapor Barrier & Caulking Subcontractor
Sunset Heights Elementary School
Nashua, NH

Dear Shawn,

Harvey Construction is seeking approval to award the Air Vapor Barrier & Caulking Work for subject project to Streamline Waterproofing & Caulking for the total amount of Thirty Four Thousand Five Hundred & Seventy Four Dollars ($34,574)

This value is for the Base Bid and excludes all Alternates. If at a later time the city decides to accept the alternates a change order can be written to the subcontractor for the value identified on the attached scope review sheet.

This award is based on the attached cost proposal and our bid tabulation spreadsheet.

Sincerely,

Chris Nikias
Project Manager

I hereby authorize Harvey Construction to enter into a contract agreement with the aforementioned subcontractor/supplier on behalf of the Nashua School District for the amount stated above.

508-533-6905 FAX: 508-533-6901
 TERMS AND CONDITIONS

April 20, 2015

1. Merrimack Building Supply, hereinafter referred to as seller, will not be responsible or liable in any manner for any delays or failure to make delivery at specified times or otherwise whether or not such failure or delay is due to circumstances beyond the control of seller, including, but not limited to, failures and delays due to acts of God, force majeure, strikes, labor difficulties, fire, floods, storms, accidents, machinery breakage, scarcity of material parts or fuel, transportation difficulties, governmental requirements, regulations or orders of manufacturer's inability to meet delivery schedules.

2. This proposal is subject to change if not accepted within 30 days from date shown, unless a different period of time for acceptance is stated.

3. No order may be cancelled without our written consent.

4. If accepted, this proposal is subject to the approval of the credit department of seller.

5. We will not honor back charges for materials or labor without our written consent.

6. Payments for all material furnished are to be paid seller in full within 30 days from date of invoice. Seller may tender the goods supplied hereunder in separate deliveries, and if buyer fails to pay as agreed, seller may stop subsequent deliveries until such payment is made and satisfactory guarantee given that future payments will be made as agreed or, seller, at its option may cancel this agreement at any time thereafter by giving written notice of cancellation to buyer.

7. Any tax that may be imposed by Federal or State governments, inclusive of any applicable state sales taxes, affecting this sale or contract, shall be in addition to the amount of the quotation and shall be the responsibility of the buyer.

8. This writing is intended as a final expression of the items of sale hereunder. No agent, employee or representative of seller has any authority to bind seller to any other affirmation, representation or warranty concerning the goods sold hereunder. This contract may not be modified or rescinded, and no provision hereof may be waived, except by a writing signed by all parties hereto. Acceptance of any of the material described on page 1 shall constitute buyer's acceptance of this agreement solely upon the terms and conditions contained herein: not withstanding any terms and conditions that may be contained in any acknowledgement, purchase order or other form of buyer.

9. Any additional orders pertinent to this contract shall be subject to all terms and conditions of the original proposal.

10. The total amount due hereunder shall be due and payable within 30 days from date of invoice. A late payment charge equal to 2% per month or 24% per annum will be charged on all amounts not paid within said time period. If payment is not made when due, customer also agrees to pay all costs of collection, including attorney's fees for effecting collection.

11. Seller warrants that any goods supplied hereunder will be free from defects in materials or workmanship and that it will convey good title to all goods, free of all liens of any kind. This is seller's sole warranty with respect to the goods. Seller makes no other warranty of any kind whether express or implied and all other warranties whether express or implied, including the warranties of merchantability and fitness for a particular purpose which exceed the aforesaid obligation are hereby disclaimed by seller.

Seller's obligation on any claim is limited to repair or replacement of the defective material, at seller's option, and such repair or replacement is the sole remedy under this contract. In no event shall any claim of any kind whether as to goods delivered or for non-delivery of goods be greater in amount than the purchase price of the goods in respect of which such damages are claimed, and all liability for any other damages whether such liability be based upon breach of contract, breach of warranty, negligence or any other cause, including, without limitation, liability for consequential or incidental damages or damages for delay are hereby expressly disclaimed. All claims for breach of warranty must be made in writing within sixty (60) days of delivery.

12. Terms of shipment are F.O.B. origin, freight prepaid. It is the responsibility of the buyer to notify the carrier of any visible or concealed damages, and to file a claim for replacement or repair charges with the carrier.

13. Minimum single invoice is $10.00 net.

14. Storage of material(s) is the responsibility of the buyer.

15. 15% restocking and rehandling charge on all material out of warehouse.

16. Material ordered special from manufacturers will be subject to the restocking and rehandling charge set forth by the specific manufacturers. Special ordered material may not be available for return for credit.

RE: Recommendation of Award – Exterior Insulation Finish System (EIFS) Subcontractor
Sunset Heights Elementary School
Nashua, NH

Dear Shawn,

Harvey Construction is seeking approval to award the EIFS Work for subject project to Commercial Insulators, LLC for the total amount of Twenty One Thousand Eight Hundred & Fifty Dollars ($21,850)

This value is for the Base Bid and excludes all Alternates. If at a later time the city decides to accept the alternates a change order can be written to the subcontractor for the value identified on the attached scope review sheet.

This award is based on the attached cost proposal and our bid tabulation spreadsheet.

Sincerely,

Chris Nikias
Project Manager

I hereby authorize Harvey Construction to enter into a contract agreement with the aforementioned subcontractor/supplier on behalf of the Nashua School District for the amount stated above.

ATTN.: Estimating Department

PROJECT: Sunset Heights School
Nashua NH

SPEC. SECTION: 093100

DESCRIPTION OF WORK:
1. Furnish and install PT-1: Porcelato CD02 Uptown Taupe 12x12 floor tile and matching 6x12 cove base at RM#s 117, 119, 141 and 142. Tile to be thinset, grout to be cementitious. Transitions to be Schluter Reno-Ramp as specified. Antifracture membrane carried at slab infills in RM#s 117/119 and at floors of 141 and 142. Waterproof membrane carried at perimeter of rooms at wall/floor junction.
2. Furnish and install PT-1: Porcelato CD02 Uptown Taupe 12x12 wall tile to 3'-6" and 6'-6" at RM#s 141 and 142 as indicated on elevations (See alternates for wall tile at RM# 141 and 142 vestibules and RM# 117 and 119 wainscots). Schluter jolly color coated aluminum trim carried at top and out-corners of wainscots.

EXCLUSIONS (All exclusions below are applicable to this project unless specifically outlined in the “Description of Work” above or “Notes” below): floor and wall prep (Including leveling, sand blasting, patching, shot blasting and grinding), vestibules at 141 and 142, phasing, temporary heating, mud bed, epoxy set, epoxy grout, waterproof membrane testing, patching of existing tile, moisture testing, demolition, shop drawings, premium or night labor, expansion joint treatment, tile backerboard, caulking, and removal of trash from site.

ESTIMATED JOB COST: $16,030.00

VOLUNTARY ALTERNATES:
1. ADD $4,450.00 to furnish and install PT-1: Porcelato CD02 Uptown Taupe 12x12 wall tile wainscots at RM#s 117 and 119 (similar to RM#s 141 and 142).
2. ADD $1,820.00 to furnish and install mud beds to replace any existing mud beds at RM#s 141 and 142. This only needs to be carried if there are existing mud beds.
3. ADD $1,520.00 to furnish and install PT-1: Porcelato CD02 Uptown Taupe 12x12 wall tile wainscots at the vestibules of RM#s 141 and 142. No elevations were provided of these areas.

SEE PAGE #2

The Corporation Shall Assert A Mechanics Lien For All Outstanding Balances Against Property To Which Labor And Materials Were Supplied And Placed In Collections. The Corporation Shall Be Entitled To All Attorneys Fees And Costs Associated With Any Action To Collect Balances Due. Pricing for special order items to be held for 60 days after the date of this quotation unless otherwise noted within the above quotation. Capital Tile & Marble requires a clear, unobstructed path & continuous sequence of work to perform the duties listed in the above quotation.

This quotation is based on today’s labor and materials rates and as such an adjustment to this quotation may be required if substantial time lapses between the quotation date and the actual start of the work.
NOTES:

- Any grinding, floating, leveling, sand blasting, or shot blasting of substrates as indicated in the tile specification is excluded at this time due to undefined total scope of work.
- Any caulking as defined in the spec is excluded due to undefined total scope of work.
- At any locations where “wall washer” light coves are present and tile finish is indicated; specified light fixtures must be installed prior to tile installation.
- All tile to be installed in a straight, grid pattern.

We are pleased to submit the above quotation for your consideration. This quotation is per plans and specifications, and as noted above.

RE: Recommendation of Award – Metal Studs & Drywall Subcontractor
Sunset Heights Elementary School
Nashua, NH

Dear Shawn,

Harvey Construction is seeking approval to award the Metal Studs & Drywall Work for subject project to VPS Drywall LLC for the total amount of Two Hundred and Seven Thousand Three Hundred & Thirty One Dollars ($207,331)

This value is for the Base Bid and excludes all Alternates. If at a later time the city decides to accept the alternates a change order can be written to the subcontractor for the value identified on the attached scope review sheet.

This award is based on the attached cost proposal and our bid tabulation spreadsheet.

Sincerely,

[Signature]

Chris Nikias
Project Manager

I hereby authorize Harvey Construction to enter into a contract agreement with the aforementioned subcontractor/supplier on behalf of the Nashua School District for the amount stated above.

| **ESTIMATE** | Sunset Heights School Renovations, 15 Osgood Road, Nashua, NH 03060  
This estimate is based upon Harriman "Final Bid Package" prints dated 3 April 2015:  
We propose to supply and install the following as noted:  
Cold-Formed Metal Framed exterior walls.  
Cold-Formed Metal Framed in-fill at the exterior canopy.  
Cold Formed Metal Framed in-fill on roof as shown, B4/S60.3.  
Light Gage Metal Framed eaves and soffits on the additions.  
Denaglass exterior sheathing, or equal.  
Stamped engineered shop drawing for the exterior walls.  
In-wall blocking at the exterior door and window openings in new CFMF.  
Light Gage Metal Framed interior partitions and soffits.  
Wall in-fill as shown on A3 & A4/A50.1 in Corridor 151 and the Classrooms.  
Installation of the hollow metal door frames, labor only.  
In-wall blocking for the Main Office cabinets and toilet accessories in the new GWB partitions.  
Fiberglass sound insulation at the new interior partitions.  
Mold-resistant drywall on bath partitions.  
Tile backer at the toilet/bath 'wet walls'.  
Drywall at the new light gege metal framed partitions, soffits, and exterior walls.  
Abuse-Resistant drywall as per partition types as shown.  
Level 4 GWB Finish where exposed and Level 1 GWB Finish where concealed.  
Temporary partitions in gym as shown.  
Clean-up to an on-site dumpster.  
EXCLUDES:  
Dumpsters or dumpster fees  
ACT ceilings  
Doors or door hardware  
Exterior blocking not noted  
Roof blocking. |           | 199,849.00 |

PROPOSAL

 punch Labor and Material as follows:

1. Provide layout from GC provided control lines
2. Provide PS: stamped shop drawings for IS400 cold formed framing
3. Provide LGMF Exterior Wall Framing at (4) Mech Room Locations
4. Provide LGMF at New Exterior walls at Gym area
5. Provide LGMF at detail B4/S60.1 at Roof
6. Provide Exterior Sheathing Mech Room Exterior Walls
7. Provide Exterior Framing and DemGlass at Overhangs at New Mech Rooms (excludes Direct Applied)
8. Provide 2x12 and small panel at detail H4/A50.1 at steel angle at New LGMF wall
9. Provide 2x10 at face of canopy entrance - Detail H6/A50.1 (excludes roof eave blocking)
10. Provide 2x8 lumber around exterior openings at new LGMF exterior
11. Provide Temp Walls, Install Door Frames and Doors and Hardware at Temp walls. And Blocking
12. Provide Interior Metal Stud Framing for all new walls soffits and GWB Ceilings
13. Provide Framing and GWB for soffit transition at slopes
14. Provide Detail H5/A30.1 at Corridor 151 at Curtain Walls only
15. Provide fiberglass sound batts per plans/specs
16. Provide 5'8" type X drywall at typical locations
17. Provide 5'8" Mold Tough or equal drywall at wet locations and ALL Exterior walls, per plans/specs
18. Provide MDF V8H Abuse GWB at all locations per wall types for abuse GWB
19. Provide a level 4 drywall finish to 6' above ceiling height - full height at exposed areas
20. Provide drywall taping and tape tape above ceiling at rated walls, install of taping to be completed prior to MEP
21. Provide SAFB and fire caulk at all top of wall conditions for fire rated assemblies
22. Provide acoustical caulk at all top of wall conditions for STC rated assemblies
23. Provide acoustical caulk at base of all partitions
24. Provide in wall blocking for cabinets, countertops and bathroom ace
25. Provide 1/2" AC Plywood at new walls at GYM Storage, per note
26. Provide install only of hollow metal frames at Metal Stud Walls only, provided by others
27. Provide clean-up of our debris to an on-site dumpster, provided by others
28. Provide interior and exterior lifts as necessary to perform our scope of work
29. Merit shop labor
30. Provide supervision for our scope of work
31. Includes all for searchable escalations for entire project

THIS BID EXCLUDES ANY PATCHING OR ANY WORK IN E.T.R. LOCATIONS

BID EXCLUDES STUCCO AT NEW VESTIBULE OR OBLY SOFFITS AND STUCCO PATCHING AT CAFE

Base Quote: $247,345.00

Metro Walls Inc. 49 Hancock Street, NH 03101 (603) 668-2648 (603) 668-2542 FAX
Base Bid Excludes:

- Power, water, toilet, dumpsters, permits, water conditions, heat, fuel, testing, staging, demolition
- Temp barricades, safety barricades, temp walls
- Doors, Hardware, Frames
- Toilet Accessories Partitions, Level 5 finishes, ACT ceilings, FFC
- Shimming at GWB window returns - it is assumed windows will be centered in openings.
- AVB, Exterior finishes, Tyvek, Flashing, Membranes. Caulking (exterior or finish)
- Roof blocking, Curbs, Roof edge blocking, Blocking not attached to LGM/CTMF
- Millwork, Finish carpentry, FRP
- Bond costs, Prevailing Wages, Workforce Quotas
- Any LGM or GWB not shown on plans
- Plastering.
- Doors, Hardware, Frames

This proposal may be rescinded if not accepted within thirty days and is subject to approval of the construction schedule.

Please feel free to contact me with any questions.

RE: Recommendation of Award – Roofing Subcontractor  
Sunset Heights Elementary School  
Nashua, NH

Dear Shawn,

Harvey Construction is seeking approval to award the Roofing Work for subject project to Academy Roofing for the total amount of **Two Hundred & Forty Four Thousand Seven Hundred Dollars ($244,700)**

This value is for the **Base Bid and excludes all Alternates**. If at a later time the city decides to accept the alternates a change order can be written to the subcontractor for the value identified on the attached scope review sheet.

This award is based on the attached cost proposal and our bid tabulation spreadsheet.

Sincerely,

Chris Nikias  
Project Manager

I hereby authorize Harvey Construction to enter into a contract agreement with the aforementioned subcontractor/supplier on behalf of the Nashua School District for the amount stated above.

Re:  Sunset Heights School- Revised
Nashua, NH

Via Fax- (603) 668-0389

The following is a breakdown to supply labor and materials necessary to complete a (12,120-sf) Carlisle or Firestone .090 Black EPDM fully adhered system.

1. Remove existing roofs down to deck per A15.1 and dispose. **Dumpsters provided by Harvey Construction**
2. Provide temporary EPDM roofing at areas being demolished by others.
3. Furnish and install new KD wood blocking.
4. Furnish and install a double layer of 1.5” (3” total) **glass faced** polyisocyanurate insulation at roof system R1.
5. Furnish and install a base layer of 2.5” **glass faced** polyisocyanurate insulation at roof system R2.
6. Furnish and install tapered insulation per roof system R2 and crickets per plans.
7. Furnish and install a single layer of ½” Dens Deck prime over all new roof surfaces.
8. Attach insulation with approved fasteners per manufacturer’s specifications.
9. Adhere .090 Black EPDM per manufacturer’s specifications.
10. Flash walls, vents, and curbs per A15.1 dated 04/15/15.
11. Patch areas where existing curbs are removed by others.
12. Flash new curbs on existing roof. Tie new curb flashing into existing roof per manufacturers standard details, not 30-year warranty details.
13. Furnish and install standard expansion bulb per plans.
14. Fabricate 16 oz Freedom Gray copper flashing for masonry in contact with roofing for installation by others.
15. Fabricate and install 16 oz Freedom Gray copper counter flashing and tie into flashing installed by others.
16. Fabricate and install new 24-ga fascia metal at new roof locations only. **Standard Color**
17. Furnish and install 24-ga “One Edge” gravel stop at new roof locations only. **Standard color**
18. Furnish and install 24-ga “Anchor Tite” edge metal at new roof locations only. **Standard Color**
19. Furnish and install 2-2x12 KD on top of existing roof deck to fasten snow rails.
Harvey Construction
April 24, 2015
Page #2

20. Furnish and install Alpine 115R two pipe snow rails per A15.1.
21. Snow rails to be powder coated. **Standard Color**
22. Clean up.
23. All materials installed per manufacturer’s specifications.
24. 30-year 72-MPH standard wind speed warranty.

Exclusions: Dumpsters, rated wages, walkway pads, low VOC bonding, fire safe insulation, flashing for other trades, infill of metal deck, fire rated EI, gutter/downspout, demo of existing structure, new fascia wood, soffit, bolts for wood blocking, supply of composite metal, spray insulation, vertical insulation/plywood, liquid air/vapor barrier, vapor barrier, roof hatch, ACM metal panels, metal gravel stop/fascia at existing roofs, and winter conditions.

We propose to furnish labor and material – complete in accordance with above specifications, and subject to conditions of this agreement, for the sum of:

Two Hundred Forty Four Thousand Seven Hundred.......................... ($244,700.00) dollars

**Alternate # 5: In addition to the base bid scope, furnish and install the following.**

**Add $479,900 to base bid**

1. Remove existing roofs down to deck per A15.1 and dispose. **Dumpsters provided by Harvey Construction**
2. Provide temporary EPDM roofing at areas being demolished by others.
3. Remove existing wood blocking at sloped roof perimeter per A1/A15.1.
4. Furnish and install new KD wood blocking at entire roof perimeter.
5. Furnish and install a double layer of 1.5” (3” total) glass faced polyisocyanurate insulation at roof system R1.
6. Furnish and install a single layer of ⅛” Dens Deck prime over all new roof surfaces.
7. Attach insulation with approved fasteners per manufacturer’s specifications.
8. Adhere .090 Black EPDM per manufacturer’s specifications.
9. Flash walls, vents, and curbs per A15.1 dated 04/15/15.
10. Fabricate 16 oz Freedom Gray copper flashing for masonry in contact with roofing for installation by others.
11. Fabricate and install 16 oz Freedom Gray copper counter flashing and tie into flashing installed by others.

12. Fabricate and install new 24-ga fascia metal at roof locations noted per A15.1 dated 04/15/15. **Standard Color**

13. Furnish and install 24-ga “One Edge” gravel stop at roof locations noted per A15.1 dated 04/15/15. **Standard color**

14. Furnish and install 2-2x12 KD on top of existing roof deck to fasten snow rails.

15. Furnish and install Alpine 115R two pipe snow rails per A15.1.

16. Snow rails to be powder coated. **Standard Color**

17. Clean up.

18. All materials installed per manufacturer’s specifications.

19. 30-year 72-MPH standard wind speed warranty.

**Exclusions:**
- Dumpsters, rated wages, walkway pads, low VOC bonding, fire safe insulation, flashing for other trades, infill of metal deck, fire rated EJ, gutter/downspout, demo of existing structure, soffit, bolts for wood blocking, supply of composite metal, spray insulation, vertical insulation/plywood, liquid air/vapor barrier, vapor barrier, roof hatch, ACM metal panels, and winter conditions.

**Alternate # 6:** In addition to the base bid scope, furnish and install the following.

**Add $194,900 to base bid**

1. Remove existing ballast roofs down to deck per A15.1 and dispose. **Dumpsters provided by Harvey Construction**

2. Furnish and install a double layer of 1.5” (3” total) glass faced polyisocyanurate insulation at roof system R1.

3. Furnish and install a single layer of ½” Dens Deck prime over all new roof surfaces.

4. Attach insulation with approved fasteners per manufacturer’s specifications.

5. Adhere .090 Black EPDM per manufacturer’s specifications.

6. Flash walls, vents, and curbs per A15.1 dated 04/15/15.

7. Fabricate 16 oz Freedom Gray copper flashing for masonry in contact with roofing for installation by others.

8. Fabricate and install 16 oz Freedom Gray copper counter flashing and tie into flashing installed by others.

9. Furnish and install 24-ga “Anchor Tite” edge metal at roof locations noted per A15.1 dated 04/15/15. **Standard Color**

10. Clean up.

11. All materials installed per manufacturer’s specifications.

12. 30-year 72-MPH standard wind speed warranty.
Exclusions: Dumpsters, rated wages, walkway pads, low VOC bonding, fire safe insulation, flashing for other trades, infill of metal deck, fire rated EI, gutter/downspout, demo of existing structure, soffit, bolts for wood blocking, supply of composite metal, spray insulation, vertical insulation/plywood, liquid air/vapor barrier, vapor barrier, roof hatch, ACM metal panels, and winter conditions.

Respectfully submitted,

Chad Gibson
Estimator

Note: We may withdraw this proposal if not accepted within thirty (30) days.
Proposal
04/21/15

Harvey Construction Corporation
10 Harvey Rd.
Bedford NH 03110

Project: 5154 Sunset Heights Roofing Final

Work to be performed for new black 0.90 mil. EPDM roofing systems:

Supply and utilize all required staging and safety systems needed for specific roof elevation and pitch.

Supply and install temporary ground and building protection as needed to accommodate roofing renovation.

Remove and dispose of all existing roof membrane, flashings, terminations, sealants, fasteners and insulation down to original roof deck or ACM materials.

Remove and dispose of existing hazardous roofing membrane, insulation, flashings, sealants, counter flashings, and roofing materials down to original roof deck. Roof top asbestos abatement of the outlined hazardous materials will be performed by a licensed subcontractor. Due to the information provided it is assumed that the locations specified by the provided documents in the bid package are the only confirmed locations.

Remove and dispose of existing perimeter metals down to original wood nailing if needed.

Inspect and sweep clean roof area if needed.

Refasten existing wood blocking nails as recommended by the roof manufacturer.

Supply and install new pressure treated perimeter edge wood blocking ensuring that the new roof assembly thickness as well as to be mechanically attached to roof deck using the recommended fasteners if needed.

Supply and install new 3" insulation thickness comprised of 2 staggered layers as per manufactures specifications to accommodate R1 locations.

Supply and install new 2.5" polyisocyanurate roof insulation base layer to accommodate R2 assembly locations.

Supply and install new 1/4" per ft. tapered roof insulation using the recommended layout to create positive roof patch towards existing roof drain locations as specified to accommodate R2 roof systems.

Supply and install new 4x4" tapered roof drain sumps at the roof drain locations as per manufactures recommendations.

Supply and install new tapered roof insulation as needed behind high side of roof curbs larger than 18" in width to help accommodate proper water drainage.
Supply and install new 1/2" gypsum cover board to be mechanically attached to roof deck using the recommended methods as per manufactures specifications.

Supply and install new black .050 mil. EPDM membrane with factory applied seam tape technology to be fully adhered to cover board using the recommended methods as per manufactures specifications.

Supply and install new base tie ins, fully adhered vertical wall curb membrane, double warp corner flashings, metal counter flashings, and sealants as needed to fully flash existing roof top exhaust fans or equipment shown on roof drawing provided.

Supply and install new universal size EPDM pipe boot roof flange flashings at all existing plumbing vent flashings to fully flash plumbing pipe or equipment pipes into roof system as per manufactures specifications.

Supply and install new pocket penetrations at all existing roof top equipment lines as shown on roof drawing provided.

Design, supply, fabricate, and install new pre finished edge metal with contentious anchoring cleat design for concealed fastening to be fully flashed into roof system using the recommended methods as per manufactures specifications.

Supply and install all recommended flashings and sealants to comply with 30 yr. warranty characteristics.

Supply and install new 2-rail mill finish snow rail retention system to be flashed into roof system and mounted on wood blocking mechanically attached to roof deck at locations as specified on roof drawing provided.

Final clean up and demobilization.

30 yr. roof manufactures warranty.

2 yr. workmanship guarantee.

**************************
Excluded from estimate:
Unforeseen conditions.
Permits and fees (To be acquired by G.C.)
Changes that may arise during design build phases.
Roof deck removal or replacement.
Substrate board.
Metal panel systems.
Vapor barrier system.
Roof drain systems.
Tapered roof areas or combinations.
Fascia cladding.
Soffit cladding.
Additional mechanical, electrical, or plumbing penetrations outside what is currently shown in the drawing package provided.
Waste disposal charges or dumping fees to be supplied by G.C.
**************************
Alternate #6: $150,109.00

The following subs were invited to bid but did not do to work load:
1. Nickerson & Remick
2. Optimum BS
3. Chey Insulation
4. Streamline Waterproofing & Caulking
5. Builders Installed Products
6. Energy Improvements
Subject to the terms and conditions stated in this agreement, Contractor is willing to furnish to you all material and labor required for the Scope of Work described below:

**Scope of Work (the “Work”) to be performed:** Draft stop, fire block, fire stop (UBC 708.2, 1 et seq., formerly 2516(f), or locally adopted equivalent), and fire rated caulking are not included within Contractor’s Work unless specifically listed below.

**CELLULOSE NOTICE:** If cellulose is to be applied with a wet spray application, you must allow adequate time for it to cure and dry before installing drywall or other materials. The adequate time required varies depending upon climate, altitude and weather. Do not install vapor barriers, vapor retarders, dry wall, or other interior finish until the material has dried to less than 20% moisture content. Time to cure will vary based on climate and weather. Be sure to schedule your trades accordingly.

NOTE: This agreement consists of multiple pages. If you do not receive the number of pages noted above, please contact Contractor directly at the telephone number stated above.

**TERMS OF PAYMENT:** Payment in full due as stated on invoice regardless of any payment arrangements you have with third parties.

**ACCEPTANCE:** Contractor may change and/or withdraw this agreement if Contractor does not receive your signed acceptance within 10 business days after the Date stated above.

**PRICING:** The prices stated in the Scope of Work above will remain firm for 90 days after the Date stated above. If performance of this agreement extends beyond this 90-day period, you agree to pay Contractor’s then current pricing (“Price”) for any Work performed after that 90-day period. The Prices are based on the terms and conditions expressly stated in this agreement. The prices exclude any and all terms and conditions not expressly stated herein, including, without limitation, any obligation by Contractor to name you or any third-party as an additional insured on its insurance policy, to provide per project aggregate insurance coverage for the Work, to participate in any owner controlled, wrap, or similar insurance program, to indemnify or defend you or any third-party from any claims, actions and/or lawsuits of any kind or nature whatsoever except to the limited extent stated in Section 18 of this agreement. Any terms or conditions required by you by contract or otherwise in addition or inconsistent with those expressly stated in this agreement will result in additional charges and/or higher prices. Any additional work performed is subject to Contractor’s then current pricing (unless Contractor otherwise agrees in writing) and to this agreement.

Date: 

THE INFORMATION CONTAINED IN THIS AGREEMENT IS CONFIDENTIAL. NEITHER THIS AGREEMENT NOR ITS TERMS MAY BE DISCLOSED TO THIRD PARTIES.

1. **ACCEPTANCE.** This agreement is expressly limited to and made conditional upon your acceptance of its terms and conditions. Any of your terms and conditions which are in addition to or different from those contained herein which are not separately agreed to in writing (except additional provisions specifying quantity, description of the products or work ordered and shipping instructions) are deemed material and are hereby objected to and rejected. You waive your objection to any terms and conditions contained herein if Contractor does not receive written notice of your objection within ten business days of the date of this agreement. You will in any event be deemed to have assented to all terms and conditions contained herein if any part of the products or work described herein are provided or performed. Please note particularly the Limited Warranty, Limitation of Remedies and Limitations on Actions and Liability provisions set forth below. You acknowledge that the prices stated are based on the enforceability of these terms and conditions, and on the Limited Warranty, Limitation of Remedies and Limitation of Actions and Liability provisions below, that the price would be substantially higher if Contractor could not limit its liability as herein provided, and that you accept these provisions in exchange for such lower prices.

2. **LIMITED WARRANTY.** All work performed by Contractor is warranted to be free from defects in material and workmanship for one year from the date of
completion of the installation to the terms below. Contractor makes no warranties regarding products sold but assigns to you any manufacturer warranties relating to the products. THIS EXPRESS WARRANTY IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES, WHETHER EXPRESSED, IMPLIED OR STATUTORY, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. This limited warranty does not cover damages resulting from (a) accident, neglect, misapplication, misuse, improper installation, normal wear and tear; (b) failure to use or maintain the product in accordance with manufacturer's instructions; and (c) alteration, repair or attempted repair by anyone other than Contractor or its authorized representative. You shall be solely responsible for the correctness of the plans and specifications and shall release and hold harmless Contractor from any damages resulting from improper, inadequate or vague information supplied by you. Contractor does not take on any obligation to inspect or evaluate the work of other parties in any manner or aspect. This warranty is not transferable.

3. INSURANCE. Contractor shall maintain workers' compensation (employer liability), as required by law, and $1,000,000 in general liability insurance while performing the work. Contractor reserves the right to be self-insured to the extent allowed by applicable law. Contractor does not agree to name any other persons or entities as additional insureds.

4. LIMITATION OF REMEDIES. Your sole and exclusive remedy against Contractor for any and all claims for damages arising out of or alleged to have arisen out of the Work will be limited to the repair or replacement by Contractor, at Contractor's option, of any nonconforming work or to the issuance of a credit for such nonconforming work in accordance with these terms and conditions provided Contractor is given a reasonable opportunity to inspect the work and confirms such nonconformity. This exclusive remedy shall not be deemed to have failed of its essential purpose so long as Contractor is willing and able to repair or replace the nonconforming work and, in any event, Contractor's maximum liability for any damages shall be limited to the total amount paid to Contractor for the Work under this agreement. This Limitation of Remedies clause shall apply to the parties to this agreement as well as to the current owner(s) of the project and its respective successors and assigns. If you receive a claim for damages by any owner arising out of or alleged to have arisen out of the Work, you agree to give written notice to Contractor of the claim and provide Contractor an opportunity to inspect the alleged damages within 30 days after Contractor's receipt of the notice. If you fail to give the required notice and/or fail to allow Contractor an opportunity to inspect the alleged damages within 30 days, you hereby waive any and all rights for damages and/or correction of work against Contractor. This Limitations of Remedies may be plead as a complete bar to any action in violation of this clause.

5. LIMITATIONS ON ACTIONS AND LIABILITY. All claims and/or lawsuits including but not limited to claims or lawsuits for indemnity and/or contribution against Contractor arising under this agreement must be made within 13 months from the date of completion of the installation. CONTRACTOR WILL NOT BE LIABLE FOR ANY LOSS, DAMAGE OR INJURY RESULTING FROM DELAY IN DELIVERY OF THE PRODUCTS OR FOR ANY FAILURE TO PERFORM THAT IS DUE TO CIRCUMSTANCES BEYOND ITS CONTROL. CONTRACTOR DISCLAIMS ALL LIABILITY FOR ANY AND ALL DAMAGE WHICH MIGHT BE SUSTAINED BY ANY PERSON WHO MAY BE ALLEGEDLY AFFECTED BY THE EMANATION OF PARTICLES FROM CERTAIN TYPES OF INSULATION. THE MAXIMUM LIABILITY, IF ANY, OF CONTRACTOR FOR ALL DAMAGES, INCLUDING WITHOUT LIMITATION CONTRACT DAMAGES AND DAMAGES FOR INJURIES TO PERSONS OR PROPERTY, WHETHER ARISING FROM CONTRACTOR'S BREACH OF THIS AGREEMENT, BREACH OF WARRANTY, NEGLIGENCE, STRICT LIABILITY OR OTHER TORT WITH RESPECT TO THE PRODUCTS, OR ANY SERVICES IN CONNECTION WITH THE PRODUCTS, IS LIMITED TO AN AMOUNT NOT TO EXCEED THE CONTRACT PRICE. IN NO EVENT SHALL CONTRACTOR BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, LIQUIDATED, OR SPECIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOST REVENUES AND PROFITS, ATTORNEYS FEES AND/OR COSTS EVEN IF IT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE RIGHT TO RECOVER DAMAGES WITHIN THE LIMITATIONS SPECIFIED IS YOUR EXCLUSIVE REMEDY IN THE EVENT THAT ANY OTHER CONTRACTUAL REMEDY FAILS OF ITS ESSENTIAL PURPOSE.

6. PRICES, TERMS AND SHIPMENT. No cash discounts, back charges, set offs or counterclaims are allowed unless specified by Contractor. In addition to the prices specified, you agree to pay any federal, state or local excise, use, occupational, or similar tax now in force or to be enacted in the future, assessed against Contractor or you by reason of this transaction. No retention is permitted unless Contractor agrees otherwise in writing. Any past due payment will be, at Contractor's option, subject to interest at 1 1/2% per month (18% per annum), to the extent permitted by law. You agree to receive (or permit Contractor to receive) near the work site, any materials needed to complete the Work. You agree to protect such materials from damage or loss and provide Contractor, free of charge, with reasonable use of light, heat, water, power, storage space and use of available elevators and hoists as needed. Title to all materials under this agreement shall not transfer to you until Contractor receives payment in full. Contractor may charge you a fee and its actual expenses if the job site is not ready for work on the date you specify.

7. FORCE MAJEURE. Contractor shall not be liable for any delay, failures, or default in performance of this agreement or otherwise, in whole or in part, caused by the occurrence of any contingency beyond the control either of Contractor or of suppliers to the Contractor. Such contingencies include but are not limited to failure or delay in transportation, acts of any government or any agency or subdivision thereof, judicial action, labor disputes, fire, accident, acts of nature, severe weather, product allocation or shortages, labor shortages, fuel shortages, raw material shortages, machinery or technical failure, or work that cannot be completed because of another contractor covering the pertinent portion of the building. If any contingency occurs, Contractor may allocate production, deliveries, and performance of work among its customers or substitute substantially similar materials, in its sole discretion, without liability for doing so. 

8. CONFIDENTIALITY. If you visit Contractor's premises or you otherwise receive any proprietary or confidential information from Contractor, you shall retain such information as confidential and not use or disclose it to any third party without Contractor's written consent.

9. CREDIT APPROVAL. Shipment and delivery of goods and performance of work shall at all times be subject to the approval of Contractor's credit department and Contractor may at any time decline to make any shipment or delivery or perform any work except upon receipt of payment or upon terms and conditions or security satisfactory to Contractor. By signing this agreement, you authorize Contractor to check your credit and references.

10. CANCELLATION. This agreement, or any part of it, may only be cancelled with Contractor's written approval. In the event of cancellation of this agreement, or any part hereof, you shall pay: (a) the contract price of all completed items; (b) that portion of the contract price that is equal to the degree of completion of products or work in process, effective on the date Contractor receives notice of cancellation; (c) the cost of any materials and supplies which Contractor shall have purchased to perform and which cannot be readily resold or used for other or similar purposes; (d) a restocking fee; and (e) any expenses incurred by Contractor (including legal fees and judgments) as a result of the cancellation of subcontracts or purchases related to this agreement.

11. DEFRAULT. You may terminate this agreement for Contractor's default, wholly or in part, by giving Contractor written notice of termination as follows. You may give a written notice of termination only if Contractor has received a written notice from you specifying such default, the default is not excusable under any provision hereof, and the default has not been remedied within thirty (30) days (or such longer period as may be reasonable under the circumstances) after Contractor's receipt of the notice of default. Delivery of nonconforming products or work by Contractor shall give you the rights set forth in paragraph 4 hereof but shall not be deemed a default for purposes of termination. In the event of termination for default, you shall be relieved of the obligation to pay for work not performed by Contractor prior to the effective date of such termination. A default on Contractor's part shall not subject Contractor to liability, through payment by Contractor, set off or otherwise, for any other damages, whether direct, consequential or incidental, and whether sought under theories of contract or tort.

12. ASSIGNMENT. You may not assign this agreement or any part hereof to Contractor in contravention of this agreement.

13. GOVERNING LAW. This agreement shall be construed, interpreted and the rights of the parties determined in accordance with the laws of the State of Contractor's address first listed on the front of this agreement.

14. DISPUTES AND MANDATORY MEDIATION. In the event that a dispute arises over the reasonableness of or entitlement to fees charged by Contractor, the prevailing party will be entitled to reasonable attorneys' fees and costs. In all other disputes of any nature, each party shall pay its own fees and costs. Except as required to protect confidential information and to obtain preliminary injunctive relief to prevent irreparable harm, you and the Contractor agree that prior to the initiation of any legal action the parties will engage in mediatice mediation of any and all disputes in any way related to this agreement. If the parties cannot agree upon a meditative mediator within 30 days of when the dispute arose, one will be selected pursuant to the Commercial Mediation Rules of the American Arbitration Association. Each party will share equally the fees of the mediator and the costs of mediation.

15. INSULATION DOES NOT PREVENT FROZEN PIPES. Insulating around water lines in an unconditioned or semi-conditioned area will not prevent pipes from freezing.
from freezing or accumulating condensation. To decrease the possibility of frozen pipes, locate any water pipes within a conditioned area, such as internal walls rather than external walls. If you do not locate the pipes within an internal wall, you hold Contractor harmless and release Contractor from any claims relating to frozen or burst pipes.

16. SEVERABILITY. If any provision on this agreement is not enforceable, that provision shall be effective only to the extent permitted by law and all other provisions of this agreement shall remain.

17. ENTIRE AGREEMENT. This instrument contains the entire agreement of the parties relating to the subject matter hereof and may only be waived, changed, modified, extended or discharged orally by a writing signed by the party against whom enforcement of any such waiver, change, modification, extension or discharge is sought. The terms and conditions of this agreement supersede any agreement to which it is attached.

18. INDEMNITY. Each of the parties to this agreement agrees to defend and indemnify one another from any and all claims, actions and/or lawsuits caused by the party’s negligent acts or omissions. This indemnity clause and the obligations created herein shall control and take priority over any contrary indemnity agreement entered into prior to this agreement. Furthermore, this indemnity clause and the obligations created herein shall control and take priority over any contrary indemnity agreement entered into subsequent to this agreement unless the subsequent agreement specifically refers to this indemnity clause and declares it null and void.

RE: Recommendation of Award – Wood Floor Refinishing Subcontractor
Sunset Heights Elementary School
Nashua, NH

Dear Shawn,

Harvey Construction is seeking approval to award the Wood Floor Refinishing Work for subject project to New England Sports Floors for the total amount of Sixteen Thousand Nine Hundred Dollars ($16,900)

This value is for the Base Bid and excludes all Alternates. If at a later time the city decides to accept the alternates a change order can be written to the subcontractor for the value identified on the attached scope review sheet.

This award is based on the attached cost proposal and our bid tabulation spreadsheet.

Sincerely,

Chris Nikias
Project Manager

I hereby authorize Harvey Construction to enter into a contract agreement with the aforementioned subcontractor/supplier on behalf of the Nashua School District for the amount stated above.

Fairgrounds Elementary School:
  i. Sand entire floor with 24, 36, 50, 80, 120 grit paper
  ii. Apply two (2) coats, high-solids VOC compliant oil-modified polyurethane seal
  iii. Paint Game-lines to match existing layout
  iv. Apply two (2) coats, high-solids VOC350 oil-modified polyurethane finish

ALL FOR THE SUM OF $7,600.00

Notes:
A. GC/Owner provides all necessary plant, power, water, utilities
B. GC/Owner moves/removes all furniture, fixtures, equipment from work area prior to start
C. Additional striping, including: 30 purple spots, 5 bowling lanes, 50 marks (green & red), 50 marks in big circle ADD: $900
D. Cafeteria floor refinishing ADD: $6,200

Exclusions:
1. Work beneath or behind Bleachers
2. Work on Athletic or Electrical floor inserts and cover plates
3. Wall Base behind bleacher area
4. Payment or performance bonds

Best regards,
New England Sports Floors
We propose to the complete the sanding and refinishing of Rm 123 (Gymnasium), Rm 112 (Cafetorium & Stage) and Rm 114 (Stairwell) found listed in section **096420 – Wood Floor Refinishing**. We will carry out and perform all work exactly as specified within the Scope of work detailed within the **096420** Spec.

Total Price: $21,750.00

Exclusions: Permits & fees concrete prep or leveling, thresholds, reducers, mill work (treads, risers, nosings, wood base) finished floor protection, equipment and inserts, coordination or installation of excluded items. G.C. or Owner to supply heat, lights, environmental control, and three phase power.

For the sum of: **See Above** dollars

TERMS: Payment in full upon completion

All material is guaranteed to be as specified or equal. All work to be completed in a workmanlike manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Owner to carry fire, tornado and other necessary insurance. Our workers are fully covered by Workers’ Compensation Insurance.

Authorized Signature ___________ Anthony J Carbone V.P.

Note: This proposal may be withdrawn by us if not accepted within ___ 30 ___ days.

NOTE: In the event of collection, customer pays all costs & attorney’s fees, plus balance subject to 2% interest per month, 24% per year.

Acceptance of Proposal - The above prices, specifications and conditions are satisfactory and are hereby accepted. You are authorized to do the work as specified. Payment will be made as outlined above.

**ARCHITECTS CERTIFICATE FOR PAYMENT**

In accordance with the Contract Documents, based on the on-site observations and the data compromising this application, the Architect certifies to the owner that to the best of the Architect's knowledge, information and belief the Work under the Architect's Contract has progressed as indicated, the quality of Work is in accordance with the Contract Documents, and the Contractor is entitled to payment of the AMOUNT CERTIFIED.

**AMOUNT CERTIFIED**

(Attach explanation if amount certified differs from the amount applied for. Initial all figures on the Application for Payment and on the Continuation sheet that are changes to conform to the amount certified.)

**ARCHITECT:**

By: ____________________________  
Date: ___________________________

The Certificate is not negotiable. The AMOUNT CERTIFIED is payable only to the Contractor named herein. Issuance, payment and acceptance of payment are without prejudice to any rights of the Owner or Contractor under this Contract.

**ARCHITECT’S CERTIFICATE FOR PAYMENT**

The undersigned Contractor certifies that to the best of the Contractor’s knowledge, information and belief the Work covered by this Application for Payment has been completed in accordance with the Contract Documents, that all amounts have been paid by the Contractor for Work for which previous Certificates for Payment were issued and payments received from the Owner, and that current payment shown herein is now due.

**CONTRACTOR:** Harvey Construction Corp  
**Date:** 5-20-2015

**State of:** New Hampshire  
**County of:** Hillsborough  
**Notary Public:** My commission expires APRIL 3, 2016

In accordance with the Contract Documents, based on on-site observations and the data comprising this application, the Architect certifies that to the best of the Architect’s knowledge, information and belief the Work has progressed as indicated, the quality of the Work is in accordance with the Contract Documents, and the Contractor is entitled to payment of the AMOUNT CERTIFIED.

**AMOUNT CERTIFIED:** $176,956.73  
(Attach explanation if amount certified differs from the amount applied. Initial all figures on this Application and on the Continuation Sheet that are changed to conform with the amount certified.)

**ARCHITECT:**  
**Date:**

This Certificate is nonnegotiable. The AMOUNT CERTIFIED is payable only to the Contractor named herein, subject, payment and acceptance of payment are without prejudice to any rights of the Owner or Contractor under this Contract.

CAUTION: You should sign an original AIA Contract Document, on which this text appears in RED. An original assures that changes will not be obscured.

The undersigned Contractor certifies that to the best of the Contractor's knowledge, information and belief the Work covered by this Application for Payment has been completed in accordance with the Contract Documents, that all payments have been paid by the Contractor for Work for which previous Certificates for Payment were issued, and that none of the amounts paid is now due.

CONTRACTOR:  
By: A. Stelico  
Date: 05/19/15

ARCHITECTS CERTIFICATE FOR PAYMENT

In accordance with the Contract Documents, based on the on-site observations and the data compromising this application, the Architect certifies to the owner that to the best of the Architect's knowledge, information and belief the Work under the Architect's Contract has progressed as indicated, the quality of Work is in accordance with the Contract Documents, and the Contractor is entitled to payment of the AMOUNT CERTIFIED.

AMOUNT CERTIFIED

(Attach explanation if amount certified differs from the amount applied for. Initial all figures on the Application for Payment and on the Continuation sheet that are changes to conform to the amount certified.)

ARCHITECT:  
By:  
Date:  

The Certificate is not negotiable. The AMOUNT CERTIFIED is payable only to the Contractor named herein. Issuance, payment and acceptance of payment are without prejudice to any rights of the Owner or Contractor under this Contract.
## CONTINUATION SHEET

**APPLICATION AND CERTIFICATION FOR PAYMENTS**

Ability to Contain Contractor's signed Certification is attached.
