Re: Memorandum Outlining Rational For Emergency Procurement of Barriers for Downtown

Purpose

The purpose of this memo is to memorialize the rational for recommending to the Mayor and on to the Finance Committee that emergency procurement of the barriers is necessary for narrowing Main Street in the Downtown area of Nashua.

Background

As you may know, due to the COVID-19 pandemic there has been significant loss of economic activity with the declaration of a public health crisis and an order of non-essential businesses to close along with guidance from the Governor for individuals to stay at home. It is only understandable that when restaurants were given clear instructions on how they could re-open for business. We as a community have a duty to provide as quickly as possible the environment to allow for such businesses to re-open up in a safe manner. The state did not provide a lot of notice once an announcement was made that restaurants could host patrons albeit outside.

Emergency Procurement Justification

This is a written finding that specifies that there was an immediate need to procure the barriers, which were necessary in order for the restaurants to open. There was an immediate public safety issue should restaurants use the outdoor space and there not be adequate protection from vehicles. Furthermore, the economic loss already inflicted by the COVID-19 pandemic is catastrophic and the city could have potentially incurred immediately losses should these businesses not be able to re-open after being closed or limited in their operations for such an extended period of time.

Amount: \$55,700

Thank you.

Re: Request for Special Board of Aldermen Meeting to Seek Approval to Narrow Main Street

Context for Request

The Covid-19 pandemic is unprecedented in the challenge it has posed not only to our physical health, but also to our economic health. I have been working closely with local businesses in an attempt to help them mitigate financial and economic damage during this difficult time.

The Governor of New Hampshire is now allowing restaurants to open with severe restrictions. The only on-site dining that will be allowed for the foreseeable future, will be limited to outdoor dining. To that end, my discussions with area dining establishments has been how to implement the re-opening of their restaurants, while adhering to State Guidelines to maintain social distancing practices.

Main Street is the heart of our City both figuratively and economically. We have many fine food and drink establishments that add quality of life for our residents. After much discussion and debate, our best plan going forward would be to extend outdoor dining into the street/parking spaces, allowing for enough distance between tables (8 feet table edge to table edge) and enough tables to make these businesses viable.

Proposal

The plan would call for the temporary blocking off of parking spaces; as well, as intermittently blocking some travel lanes to facilitate this plan and allow for small businesses to begin to recover. Concrete barriers will be placed along the edge of the road for pedestrian safety. Pedestrian egress and ADA compliancy will be maintained. There will be one lane open in each direction for vehicular traffic along with turning lanes. We worked with Nashua Police, Nashua Fire, Public Works, Public Health, Community Development and the Mayor's Office to move forward with this plan.

I facilitated two meetings with over sixty (60) participants of various downtown stakeholders. The initial meeting occurred May 8th and created an opportunity for participants to give feedback on how Main Street should be narrowed while providing commentary on differing issues and observations that narrowing Main Street may bring about such as where deliveries need to occur or the amount of curbside/take out business is part of an individual's business plan. Based off of this information we developed a plan that adheres to the concerns of city staff. The plan was refined by numerous individual conversations I had between the first and second meeting. During the second meeting the draft plan was reviewed in detail and received overall positive commentary.

Before you is the plan we are seeking to implement. There may need to be adjustments as time goes on and some flexibility is going to be necessary to ensure timely recalibrations can occur, but the plan before you has been reviewed and vetted receiving positive remarks to date.

Request

I am requesting a special Board of Aldermen meeting where final passage can occur all in the same evening due to the time sensitivity of this matter. Should you or any Member of the Board of Aldermen have any questions or would like to discuss this matter in greater detail I am available at your earliest convenience.

Thank you for your kind attention to this important matter.

Discussion: Polymer is a product used at the plant to coagulate sludge.

Periodically, the Facility has different companies come in and do bench testing to ensure we are using the best polymer for the best price to meet our needs. Our current product continues to perform well, producing a dry product that saves the City money in trucking and disposal costs. The Polydyne products we are currently using are Clarifloc NE2180 for the screw presses and Clarifloc C-6266 for the belt filter presses.

Polydyne is offering the City a unit price of \$1.18/lb for both of these products for the FY21 year, with a potential savings for a full 5000 gallon load at \$1.12/lb. Our annual estimated cost for these two polymers is \$412,000.

Subject: Nashua Police Department Hazard Device Unit ScanX Digital X-Ray System

The Nashua Police Department is requesting the purchase of the ScanX Scout Model D5000 to be purchased from Scanna MSC, Inc. of Sarasota FL in the amount of \$30,523.19. Funding for this purchase will be from the Justice Assistance Grant JAG FY17 and general fund. SCANNA MSC, Inc. is the authorized distributor for the manufacturer Allpro Imaging and therefore a sole source due to the manufacturer specifications and requirements of the technical industry. The digital X-Ray system is the current model employed at the Hazardous Device School (HDS). This is the school all bomb technicians go to for their basic certification (6 week course) and their week long re-certification course every three years thereafter. Our last system, which is no longer supported by the manufacturer, was also the digital x-ray system utilized by HDS for over 15 fifteen years. There is typically longevity in our equipment, absent catastrophic failure of approximately 10 years. Lastly, because it is the preferred system, NH State Police has this system as well, and there would be continuity in mission should we ask for mutual aid support for equipment and or personnel.

The warranty is a one year back-to-base on parts against faulty materials and workmanship.

The Nashua Police Department recommends the purchase from Scanna MSC, Inc. in the amount of \$30,523.19.

Sincerely,

The only contractual relationship created by this contract is between the City of Nashua and Independent Contractor, and nothing in this contract shall create any contractual relationship between the City of Nashua and Independent Contractor's consultants, sub consultants, contractors, or subcontractors. The parties also agree that Independent Contractor is not a City of Nashua employee and that there shall be no:
 - (1) Withholding of income taxes by the City of Nashua;
 - (2) Industrial insurance coverage provided by the City of Nashua;
 - (3) Participation in group insurance plans which may be available to employees of the City of Nashua;

3. **STANDARD OF CARE** Independent Contractor shall be responsible for the professional quality, technical accuracy, timely completion, and coordination of all work performed under this contract. Independent Contractor warrants that all work shall be performed with the degree of professional skill, care, diligence, and sound practices and judgment that are normally exercised by recognized professional firms with respect to services of a similar nature. It shall be the duty of Independent Contractor to assure at its own expense that all work is technically sound and in conformance with all applicable federal, state, and local laws, statutes, regulations, ordinances, orders, or other requirements. In addition to all other rights which the City of Nashua may have, Independent Contractor shall, at its own expense and without additional compensation, re-perform work to correct or revise any deficiencies, omissions, or errors in the work or the product of the work or which result from Independent Contractor's failure to perform in accordance with this standard of care. Any approval by the City of Nashua of any products or services furnished or used by Independent Contractor shall not in any way relieve Independent Contractor of the responsibility for professional and technical accuracy and adequacy of its work. City of Nashua review, approval, or acceptance of, or payment for any of Independent Contractor's work under this contract shall not operate as a waiver of any of the City of Nashua's rights or causes of action under this contract, and Independent Contractor shall be and remain liable in accordance with the terms of the contract and applicable law.

Independent Contractor shall furnish competent and skilled personnel to perform the work under this contract. The City of Nashua reserves the right to approve key personnel

assigned by Independent Contractor to perform work under this contract. Approved key personnel shall not be taken off of the project by Independent Contractor without the prior written approval of the City of Nashua, except in the event of termination of employment. Independent Contractor shall, if requested to do so by the City of Nashua, remove from the job any personnel whom the City of Nashua determines to be incompetent, dishonest, or uncooperative.

4. **CITY OF NASHUA REPRESENTATIVE** The City of Nashua may designate a City of Nashua representative for this contract. The proposal for a change shall provide enough detail, including personnel hours for each sub-task and cost breakdowns of tasks, for the City of Nashua to be able to adequately analyze the proposal. The City of Nashua will then determine in writing if Independent Contractor should proceed with any or all of the proposed change. If the change causes an increase or a decrease in Independent Contractor's cost or time required for performance of the contract as a whole, an equitable adjustment shall be made and the contract accordingly modified in writing. Any claim of Independent Contractor for adjustment under this clause shall be asserted in writing within 30 days of the date the City of Nashua notified Independent Contractor of the change.

When Independent Contractor seeks changes, Independent Contractor shall, before any work commences, estimate their effect on the cost of the contract and on its schedule and notify the City of Nashua in writing of the estimate. The proposal for a change shall provide enough detail, including personnel hours for each sub-task and cost breakdowns of tasks, for the City of Nashua to be able to adequately analyze the proposal. The City of Nashua will then determine in writing if Independent Contractor should proceed with any or all of the proposed change.

Except as provided in this paragraph, Independent Contractor shall implement no change unless the City of Nashua in writing approves the change. Unless otherwise agreed to in writing, the provisions of this contract shall apply to all changes. The City of Nashua may provide verbal approval of a change when the City of Nashua, in its sole discretion, determines that time is critical or public health and safety are of concern. Any change undertaken without prior City of Nashua approval shall not be compensated and is, at the City of Nashua's election, sufficient reason for contract termination.

6. **CITY OF NASHUA COOPERATION** The City of Nashua agrees that its personnel will cooperate with Independent Contractor in the performance of its work under this contract and that such personnel will be available to Independent Contractor for consultation at reasonable times and after being given sufficient advance notice that will prevent conflict with their other responsibilities. If all or part of the project is suspended for more than 90 days, the suspension shall be treated as a termination at will of all or part of the project and contract.

Upon receipt of notice of termination, abandonment, or suspension at will, Independent Contractor shall:
