Re: Referral from the Board of Aldermen on proposed Petition for Street Discontinuance - Portion of Palm Street.

At the Nashua City Planning Board's regularly scheduled meeting of Thursday, April 23, 2020, the Planning Board voted unanimously for a favorable recommendation, with Dan Hudson, City Engineer's comments in an e-mail dated April 22, 2020.

If you have any question concerning this notification, please contact me at 589-3110.

My March 2nd letters to the Planning Board and Board of Alderman (attached) weren’t intended to discourage the planned development, rather only to note plan deficiencies and concerns to be addressed. I agree that the development could be an overall improvement over the existing condition if fully implemented as intended.

I could support the proposed discontinuance with a few simple plan modifications (see attached markups) and granting of the “24’ Public and Emergency Access Easement (Palm Street to Ash Street)” easement to the City prior to, concurrent with, or as a condition of, the discontinuance. I recognize that formal site plans are yet to be developed, but establishing an easement through to Ash St would alleviate issues you noted with the current “dead end” street configuration, which would only be made worse if a portion of Palm St is discontinued and then the proposed development doesn’t move forward for some reason.

Thanks,
Dan

Hi Dan,

My name is Brian Corriveau and I represent the owner/petitioner for the Palm St discontinuance that will be before the Planning Board this Thursday. I have read your letter and I was hopeful I could have a few minutes of your time. It seems like you may not have had all the information with regard to this property. Our family has owned the property (Lot 99-35 and 99-36) since the house was built in 1912. Our family then purchased the former railroad property (Lot 99-69) in 2002. Prior to 2002 when the railroad property was in use, the railroad had placed wood bollards along their property line so that no cars, trucks, or snow could access their property. Up until 2002 all city trash trucks, school buses, recycling trucks, etc. used our paved parking area on Lot 99-35 to turn around. Furthermore, all snow was pushed to the end of the street and each storm it would encroach more and more into the access to that parking lot until the city sent a truck and loader to remove the snow. This was a regular occurrence up until 2002. When the Corriveau family purchased the railroad property in 2002 they removed the bollards at the end of the street and allowed the city to push the snow onto their lot (Lot 99-69). The family has allowed this for almost 20 years and has never once asked for relief or compensation. In fact, an argument could have been made many times that the large vehicles that have used the paved area on Lot 99-35 were the root cause of the accelerated wear and tear on the parking lot. This lot has had to be re-paved and sealed at an accelerated rate. However, this was never an issue with the family and they always viewed their relationship with the City of Nashua as a working relationship.

With that being said there is no area currently for city vehicles and school buses to turn around without using our private property. There is also no area for snow to be placed that will not encroach on the driveway on Lot 99-35. Therefore, we thought that with the development of this property the installation of a turnaround or pass through would be welcome, applauded, and appreciated. I hope you can understand our disappointment with your letter and its tone.

In an effort to gain understanding for the situation we outlined our property with cones two weeks ago. Both the trash and recycling trucks were forced to back down the street as there was no place for them to turn around. When they reached the intersection of Lovewell Street they could not see if any cars were coming and had to back up blindly into the street. The driver stated this was hazardous and also was very concerned about kids that often play in the street. We do not want this dangerous situation to continue however, we had up until this point viewed our relationship with the city as a working relationship. When the City needed our land for almost 100 years to turn around safely, we unconditionally obliged. We now need City property to create appropriate setbacks so as to provide a safe drive through and or turn around at the end of the street.
We have spoken with Adam Pouliot from the Fire Marshall's office and he agreed that a turnaround or drive through was more favorable than the current situation. We are not at a point where we have developed a final site plan. We would look to work with all departments at the planning stage to develop a site plan that addresses everyone's needs. I think everyone will agree that the final plan will be a substantial improvement given the current condition.

We would hope that with the additional information you would reconsider your stance so we can continue our working relationship with the city.

Sincerely,

Brian Corriveau

Memorandum

Date: March 2, 2020
To: Planning Board
From: Daniel Hudson, P.E., City Engineer
CC: Lisa Fauteux, Director of Public Works
     Mark Jennings, City Surveyor
Subject: Petition for Street Discontinuance - Portion of Palm Street

The Engineering Department has reviewed the “Proposed Palm Street Discontinuance” package sent to the Board of Alderman from Maynard & Paquette under letter dated January 9, 2020.

The Engineering Department along with the Street Department finds that the proposed discontinuance of the section of Palm Street leaves no area for the City of Nashua to dispose of snow removed from Palm Street. Currently, snow is pushed to the end of the street. The concept plan also shows no snow storage areas on the lots that are to be created on the site.

We also find that the “Street Discontinuance Plan” dated November 27, 2019 is deficient in that it lacks abutter information (Book/Page), existing utilities and proposed bounds.

HI LINDA

The attached pics show a CITY trash truck using private property at the end of Palm St as a turnaround.

The pics also indicate that the trucks are causing some damage and wear and tear on the private property pavement/parking area

Please forward these pics to the Planning Board for thursdays meeting

THANKS

Palm Street Discontinuance
Nashua, NH (J-11,134)

Dear Aldermen:

Enclosed herewith is a packet of materials with regard to some proposed new parking, a new public access way to Ash Street from Palm Street dead end and two multifamily buildings, which also includes a small discontinuance of the southerly dead end of Palm Street. The small discontinuance would permit several developments that would significantly benefit this immediate neighborhood and the City overall.

The benefits to the discontinuance of the end of Palm Street include:

1 – Elimination of the Palm Street dead end. Currently public works vehicles (plows, trash trucks, fire engines, etc.) and the general public have no place to legally turn around to exit Palm Street back onto Lovewell Street. As indicated on the Plans, a two-way access to/from the end of Palm Street to Ash Street would be possible. This would provide a significant public safety enhancement and a second access for emergency vehicles should a portion of Palm Street be blocked.

2 – With the discontinuance, it would now allow two new multifamily buildings and 18 new residential units to be developed for downtown Nashua.

3 – The lack of parking in the Tree Streets area is a significant concern. In addition to parking for the proposed new units, some parking can be provided for other buildings and units on Palm Street. Currently parking on this section of Palm Street is haphazard and irregular.

4 – This section of Palm Street backs up to a large parking lot associated with numerous businesses occupying the old mill building on Lake Street. The new proposed apartment buildings would tend to enhance property values at this section of Palm Street.
In conclusion, we suggest that this proposed small street discontinuance would be a significant benefit to not only the Proponent/property owner but to all concerned parties such as the City, Palm Street neighborhood, etc.

The Boards favorable consideration of this proposed discontinuance would be greatly appreciated.

Very Truly Yours,

Maynard & Paquette

PETITION
FOR
STREET DISCONTINUANCE

TO THE HONORABLE BOARD OF ALDERMEN OF THE CITY OF NASHUA:

Pursuant to the Nashua Revised Ordinances, Chapter 285, Article III, Sections 23-25, the undersigned requests that the following described portion of:

Palm Street

be discontinued from public dedication or use:

Beginning at a point in the west line of Palm Street at the north west corner of the within described parcel, said point also being the northeast corner of Lot 35 Sheet 99, thence;

1. N 88°-18'-38" E a distance of forty and 00/100 feet (40.00) to a point in the east line of Palm Street, thence;

2. S 01°-41'-22" E a distance of fifteen and 38/100 feet (15.38') to a point at the southeast terminus of Palm Street, thence;

3. By a curve to the left having a radius of 1935 feet a distance of seventy and 33/100 feet (70.33') to a point at the southwest corner of Palm Street, thence;

4. N 01°-41'-22" W a distance of seventy three and 22/100 (73.22") to the point of beginning.

Said discontinuance of Palm Street is shown on a plan titled "Street Discontinuance Plan Palm Street adjacent to Sheet 99/Lot 35, 137 Palm Street, Nashua, New Hampshire" Prepared For Theresa Corriveau Revocable Trust, and Palms Edge, LLC, dated November 27, 2019, Prepared by Maynard & Paquette Engineering Associates, LLC.
5.
PETITION/STREET DISCONTINUANCE:

Re: Petition for Street Number Assignment for – Tax Map 103 Lot 103, Almont Street

Dear Board of Aldermen,

My name is Marcelo Borges d/b/a GIMAK Properties, LLC the current owner of Tax Map 103 Lot 103 located on Almont Street. I was directed by Fire Marshall Adam Pouliot to contact the Board of Aldermen to seek resolution in assigning Tax Map 103 Lot 103 an official street address.

Currently, Tax Map 103 Lot 103 is a vacant lot with the exception of a small shed (to be razed) located toward the rear of the property. The property abutting my property to the North, along Almont Street (Tax Map 103 Lot 101), has a street address of #28. The property abutting my property to the South, along Almont Street (Tax Map 103 Lot 105), has a street address of #30. Per the Zoning Department, Tax Map 103 Lot 103 meets all the requirements to build a house on the vacant lot. The NH E911 standards requires sequential whole numbering of lots be assigned to new construction. Tax Map 103 Lot 103 was not given a numbered street address and to comply, I need a street number assigned.

The Fire Marshall recommended I contact the property owners along Almont Street to see if they would be willing to change their street address. The only way to avoid this is petition is if the Owner’s at #28 and #26 Almont Street are willing to change their address to #26(28) and #24(26) allowing my lot to be sequential at #28 Almont Street. After a letter and several discussions, the owners are not willing to change their addresses. Therefor, I petition the Board of Aldermen for resolution to this matter.

Property owners involved: 103-101, #28 Almont Street Laura A. & Frank A. Carson (account number 35630) – 103-197, #26 Almont Street Matthew S. Dusenberry & Sarah M. Provencher (account number 10442).

Very truly yours,
Marcelo Borges

Street Re-Numbering Petition

To: Aldermen, Alderwomen and Mayor

From: Adam Pouliot, Fire Marshal; Captain Thomas Bolton Jr.; Pam Andruskevich, GIS Tech.; Sarah Marchant, CDD Director; Marcia Wilkins, Planner I; Celia Leonard, Esquire.

RE: Sheet 103/Lot 103 Almont St

In Accordance with RSA 231:133-a and NRO 190-213, the Board of Alderman have the sole authority to assign or alter address numbers of buildings and other property along any public or private way in the municipality. The New Hampshire Addressing Standards Guide developed by NH E911 defines the universal safety standards for addressing in NH. The City of Nashua has been notified by the Division of Emergency Services and Communications that collection of data has begun in the City in March of 2019.

The request before you is to assign a numerical address where no compliant address is available with the current NH E911 Standards. This lot of record has been granted variances from the City of Nashua Zoning Board of Adjustment to construct a single family residence.

It is this Committee’s strong recommendation to continue to move forward in a way that will not create a noncompliant situation for future residents. We recommend 26 Almont St (sheet 103-lot 97) be renumbered to 24 Almont; 28 Almont St (sheet 103-lot 101) be renumbered to 26 Almont; and sheet 103 lot 103 be numbered 28 Almont St.

We would further recommend a less compliant but acceptable numbering of sheet 103 lot 103 to 28 ½ Almont St. We do not recommend using the letter A as an assigned address as this is reserved for Accessory Dwelling Units.

Respectfully submitted,
Addressing Committee
ORDINANCE

AUTHORIZING A STOP SIGN ON LEE STREET AT ITS INTERSECTION WITH
FOREST STREET

CITY OF NASHUA

In the Year Two Thousand and Twenty

The City of Nashua ordains that Part II “General Legislation”, Chapter 320 “Vehicles
and Traffic”, Article III “Stop and Yield Intersections”, Section 320-4 “Stop intersections”,
subsection D of the Nashua Revised Ordinances, as amended, be hereby further amended by
adding the following new underlined language in the appropriate alphabetical order:

“§ 320-4. Stop intersections.

...

D. The following intersections are hereby designated as stop or through streets, and
authority is hereby granted for the erection of a stop sign at the corner so
designated in accordance with the tenor of this chapter:

Stop Sign on  Sign Location  At Intersection of

...

Lee Street  Northeast corner  Forest Street”

All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

This ordinance shall become effective at the time of removal and/or installation of the necessary
sign(s) and/or device(s).
LEGISLATIVE YEAR 2020

ORDINANCE: O-20-021

PURPOSE: Authorizing a stop sign on Lee Street at its intersection with Forest Street

ENDORSER(S): Alderman Richard A. Dowd

COMMITTEE ASSIGNMENT:

FISCAL NOTE: Materials, Labor and Vehicle Overhead: $141.00

ANALYSIS

This legislation authorizes a stop sign on Lee Street at its intersection with Forest Street. The traffic engineer has stated that this would meet the Manual on Uniform Traffic Control Devices warrants as it is the minor approach to a major street.

The erection, removal and maintenance of all traffic control devices must conform to applicable state statutes and the latest edition of the Manual on Uniform Traffic Control Devices. RSA 47:17 VIII (a). The Board should consult with the city’s Traffic Engineer to determine if this ordinance is in compliance.

Approved as to form: Office of Corporation Counsel
