**III. PURPOSE OF REQUEST**

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attach additional sheets if necessary. See "Procedures for Filing a Variance" for further information.

1. Granting of the requested variance will not be contrary to the public interest, because: (The proposed use must not conflict with the explicit or implicit purpose of the ordinance and that it must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

SEVERAL NEIGHBORS HAVE TWO DRIVEWAYS ALREADY SO IT WILL NOT BE CONTRARY TO PUBLIC INTEREST. SEE ATTACHED PHOTOS OF #1 & #4 BIRCHWOOD DRIVE.  
 WE FILL THIS WOULD FIT RIGHT IN. WE DO NOT WANT TO IMITATE THE PARKING SITUATION THAT IS HAPPENING AT #6 BIRCHWOOD. SEE ATTACHED PHOTO.

2. The proposed use will observe the spirit of the ordinance, because: (The Proposed use must not conflict with the explicit or implicit purpose of the ordinance and must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

PROPOSED USE DOES NOT THREATEN OR CHANGE THE CHARACTER OF THE NEIGHBORHOOD. IT ALSO DOES NOT THREATEN PUBLIC HEALTH, SAFETY, WELFARE OR PUBLIC RIGHTS.  
 THE PROPOSED ADDITION + DRIVE FITS INTO THE CHARACTER OF THE NEIGHBORHOOD.

3. Substantial justice would be done to the property-owner by granting the variance, because: (The benefits to the applicant must not be outweighed by harm to the general public or to other individuals.)

THE BENEFIT OF ALLOWING SECOND DRIVEWAY WOULD ALLOW ELDERLY PARENT TO BE ABLE TO ACCESS ADU LIVING UNIT WITHOUT HAVING TO TRAVEL 60' +/- FROM MAIN DRIVEWAY LOCATED AT OPPOSITE SIDE OF LOT.

4. The proposed use will not diminish the values of surrounding properties, because: (The Board will consider expert testimony but also may consider other evidence of the effect on property values, including personal knowledge of the members themselves.)

ADDITION WILL BE CONSTRUCTED OF SAME MATERIALS AND SAME STYLE OF EXISTING RESIDENCE. ROOF, SIDING + WINDOWS WILL MATCH EXISTING.  
 ONCE COMPLETED IT WILL APPEAR AS IT WAS ALWAYS PART OF THE EXISTING HOUSE AND NEIGHBORHOOD

5. Special conditions exist such that literal enforcement of the ordinance results in unnecessary hardship, because: (The applicant must establish that because, because of the special conditions of the property in question, the restriction applied to the property by the ordinance does not serve the purpose of the restriction in a "fair and reasonable" way. Also, you must establish that the special conditions of the property cause the proposed use to be reasonable. The use must not alter the essential character of the neighborhood. Alternatively, you can establish that, because of the special conditions of the property, there is no reasonable use that can be made of the property that would be permitted under the ordinance. If there is any reasonable use (including an existing use) that is permitted under the ordinance, this alternative is not available.

LOCATION OF PROPOSED ADU ADDITION IS AT OPPOSITE END OF THE PROPERTY, AS FAR AWAY FROM EXISTING DRIVEWAY AS POSSIBLE. THE ADDITIONAL DRIVEWAY IS REQUIRED TO EASE THE ACCESS FOR ELDERLY PARENT. EXISTING DRIVE WOULD REQUIRE ELDERLY PARENT TO WALK 60' +/- TO GAIN ACCESS TO ADU ENTRANCE

**III. PURPOSE OF REQUEST**

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attach additional sheets if necessary. See "Procedures for Filing a Variance" for further information.

1. **Granting of the requested variance will not be contrary to the public interest, because:** (The proposed use must not conflict with the explicit or implicit purpose of the ordinance and that it must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

It won't affect any neighbor, any other house in the neighborhood. It's only use is to allow us to park our trailer + truck. I think that having a driveway there will actually bring more value to the neighborhood because our house will have a better curb appeal, will show nicer than with the muddy "parking" that it shows on winter/snow and raining day. The former owner lived here for 50+ years and 20+ years had the left side of the house being used as a driveway for trailer, camper and cars. We have been using it since we bought

2. **The proposed use will observe the spirit of the ordinance, because:** (The Proposed use must not conflict with the explicit or implicit purpose of the ordinance and must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

the new driveway will only be used to park the trailer and the truck (SUV) NO JUNK, NO TRASH, UNWANTED items in there.

3. **Substantial justice would be done to the property-owner by granting the variance, because:** (The benefits to the applicant must not be outweighed by harm to the general public or to other individuals.)

We will take care of its use maintain it nice so it will always show a good appeal and have our neighborhood neat and clean. it will really look much better than having the trailer and truck in a mess.

4. **The proposed use will not diminish the values of surrounding properties, because:** (The Board will consider expert testimony but also may consider other evidence of the effect on property values, including personal knowledge of the members themselves.)

Curb appeal counts when adding value and it is good to the neighborhood when owner upgrade/increase value it's plus for the entire community or neighborhood. I have seen many owners in the neighborhood parking their trailers/truck on a different spot than the driveway, usually on the other side on grass or portion of the house lot as we do because of the need of more space. We decided that being here for 9+ years this is the neighborhood we want to raise our kids and this is another reason for putting money and investing time building equity, because since we do have the need of more space, and can afford that our appeal have a better impact to the neighborhood I think it will not diminish the value but will put more on it and shows a better than people drive by and see car and trailer on a mud.

the house almost 5 years ago.

We really don't like how bad it gets most time of the year because of snow and rain. But using that side to park the trailer/truck has been a blessing. We are a hardworking couple and since we decide to keep ourselves in this house and loved the neighborhood we were also willing to improve our home as needed and of course, accordingly with what we can afford.

Since we having been using as a parking I thought it would be the best to do a stone paving because it is cheaper for us but it can do the job we need! and also it will show the neighborhood cleaner, organized, neat.

**III. PURPOSE OF REQUEST**

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attach additional sheets if necessary. See "Procedures for Filing a Variance" for further information.

- 1. **Granting of the requested variance will not be contrary to the public interest, because:** (The proposed use must not conflict with the explicit or implicit purpose of the ordinance and that it must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

It will provide more room for both the personal and business vehicles parked at the address, requiring less use of on-street parking. The home is not at an intersection and the current width of 13 ft is not wide to fit vehicles side by side. Also requires more time to pull in and out of driveway, requiring more time on-street to pull in. For the secondary driveway, the buckling and crumbling makes the driveway unsafe for foot traffic and the plows are digging more and more on the crumbled end each year.

- 2. **The proposed use will observe the spirit of the ordinance, because:** (The Proposed use must not conflict with the explicit or implicit purpose of the ordinance and must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

The driveway is currently buckled/cracked at the end where original paving ends and gravel extends the driveway to a new retaining wall installed by me and my neighbor to remove a crumbling rock wall that separated our property line. Our next step is to pave both driveways to fit the design. Since I am planning to pave my primary driveway I would also like to repair and pave my secondary (in-law entrance) driveway where my elderly mother-in-law is living.

- 3. **Substantial justice would be done to the property-owner by granting the variance, because:** (The benefits to the applicant must not be outweighed by harm to the general public or to other individuals.)

Improving the appearance of the driveways will be a better fit for the neighborhood and our home which was rebuilt after a fire swept thru in 2017. In addition, it will improve my ability to pull both my personal and business vehicles off the road on a widened surface that is not compromised by gravel and creeping brush.

- 4. **The proposed use will not diminish the values of surrounding properties, because:** (The Board will consider expert testimony but also may consider other evidence of the effect on property values, including personal knowledge of the members themselves.)

The value of our home increased substantially after being rebuilt. The changes will improve curbside appeal and can only continue to increase the value of properties surrounding it.

- 5. Special conditions exist such that literal enforcement of the ordinance results in unnecessary hardship, because: (The applicant must establish that because, because of the special conditions of the property in question, the restriction applied to the property by the ordinance does not serve the purpose of the restriction in a "fair and reasonable" way. Also, you must establish that the special conditions of the property cause the proposed use to be reasonable. The use must not alter the essential character of the neighborhood. Alternatively, you can establish that, because of the special conditions of the property, there is no reasonable use that can be made of the property that would be permitted under the ordinance. If there is any reasonable use (including an existing use) that is permitted under the ordinance, this alternative is not available.

The driveways are buckled, crumbled, unsafe and will only continue to erode in the winter and spring weather. Widening the primary driveway will allow for better appearance of the area where I am parking my business vehicles (a box truck and a dump trailer), and improve the ability to pull into and out of the driveway, and improve the overall appearance of the location. Please see pictures enclosed of current property appearance.

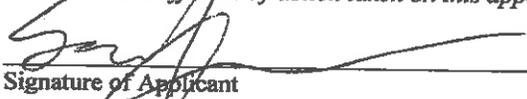

IV. USE VARIANCE ADDITIONAL INFORMATION

III. PURPOSE OF REQUEST

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attach additional sheets if necessary. Please see "Procedures for Filing a Special Exception" for further information.

1. Describe the nature of your proposal. Please be specific.

The proposal is to make the existing in-law / AUD already recognized on the assessor's card a permitted in-law / AUD

2. Does your proposal involve the physical construction or expansion of a structure? Yes  No  If yes, describe how the size of the addition (and any existing structure) compares with the physical size of surrounding properties.

[Empty text box for question 2]

3. Do you anticipate the need for additional on-site parking space as a result of your proposal? Yes  No  If yes, approximately how many square feet of paved or designated parking space will be provide for both existing and proposed usage?

[Empty text box for question 3]

4. What effects would the requested use have upon surrounding traffic congestion and pedestrian safety?

Nope, I have enough off street parking for 4 cars. The requested use would not effect surrounding traffic congestion or pedestrian safety.

5. What measures will be taken (if any) to insure that your proposal will not impair the integrity or be out of character with the zoning district or immediate neighborhood?

I will follow district bylaws to insure that my proposal will not impair the integrity or be out of charactel.

III. PURPOSE OF REQUEST

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attach additional sheets if necessary. See "Procedures for Filing a Variance" for further information.

- 1. **Granting of the requested variance will not be contrary to the public interest, because:** (The proposed use must not conflict with the explicit or implicit purpose of the ordinance and that it must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

If granted, this variance and the resulting in-law apartment (AUD Accessory Dwelling Unit) will not alter the essential character of the neighborhood or threaten the health, safety or general welfare of the public, and as a result will not violate the basic objectives of the zoning ordinance.

- 2. **The proposed use will observe the spirit of the ordinance, because:** (The Proposed use must not conflict with the explicit or implicit purpose of the ordinance and must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

If granted, this variance and the resulting in-law apartment (AUD Accessory Dwelling Unit) will observe the spirit of the ordinance. The proposed use will not conflict with the explicit or implicit purpose of the ordinance and will not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights."

- 3. **Substantial justice would be done to the property-owner by granting the variance, because:** (The benefits to the applicant must not be outweighed by harm to the general public or to other individuals.)

Substantial justice would be done to the property-owner by granting the variance as the city of Nashua already lists the property to have an in-law on the property card (see attached Exhibit A).

- 4. **The proposed use will not diminish the values of surrounding properties, because:** (The Board will consider expert testimony but also may consider other evidence of the effect on property values, including personal knowledge of the members themselves.)

The proposed use will not diminish the values of surrounding properties, because the value of the existing finished basement is unable to be counted towards the value of the property until this variance is granted, in turn once granted it would increase the value of the surrounding properties, not granting this variance would diminish the values of the surrounding properties.

5. Special conditions exist such that literal enforcement of the ordinance results in unnecessary hardship, because: (The applicant must establish that because, because of the special conditions of the property in question, the restriction applied to the property by the ordinance does not serve the purpose of the restriction in a "fair and reasonable" way. III. PURPOSE OF REQUEST

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attach additional sheets if necessary. See "Procedures for Filing a Variance" for further information.

1. **Granting of the requested variance will not be contrary to the public interest, because:** (The proposed use must not conflict with the explicit or implicit purpose of the ordinance and that it must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

We will be giving up square footage of asphalt. At the moment we are the only house on the street that has two separate driveways. This would actually be better as in essential character of the neighborhood. It will actually be safer because we can back out of our driveway directly compared to an angle which impairs vision.

2. **The proposed use will observe the spirit of the ordinance, because:** (The Proposed use must not conflict with the explicit or implicit purpose of the ordinance and must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

This will actually have our home look similar to the other homes in the area neighborhood with one driveway compared to two.

3. **Substantial justice would be done to the property-owner by granting the variance, because:** (The benefits to the applicant must not be outweighed by harm to the general public or to other individuals.)

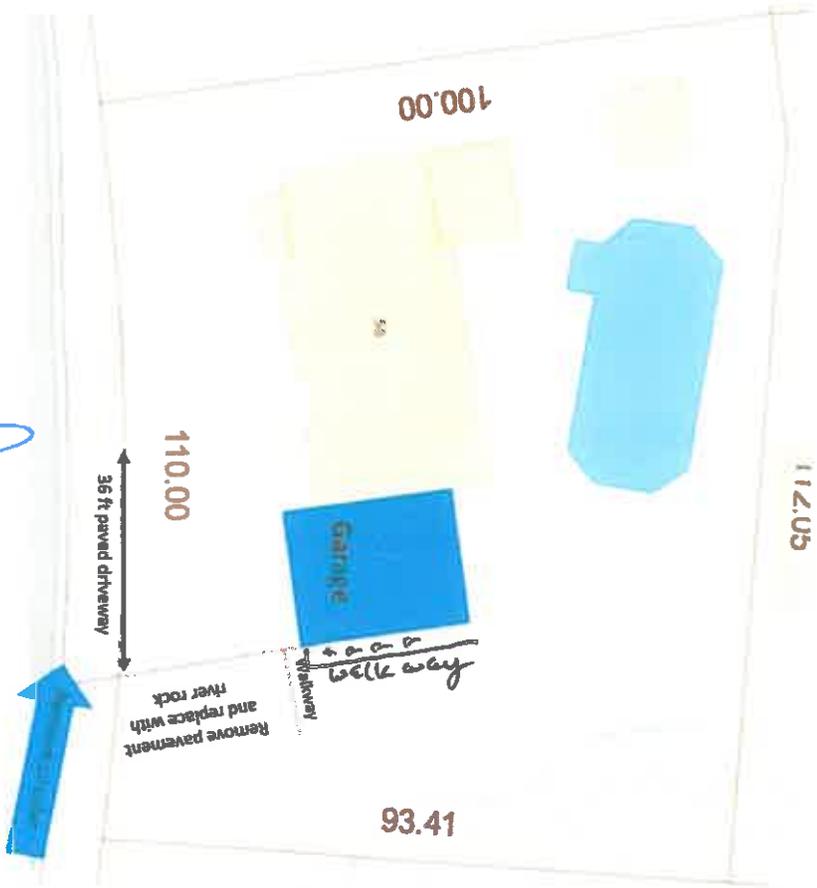

We can back out directly on to the road. As mentioned above we have to back out at an angle which impairs vision of sight. We do not have sidewalks so our neighbors walk on the street. This would be safer.

4. **The proposed use will not diminish the values of surrounding properties, because:** (The Board will consider expert testimony but also may consider other evidence of the effect on property values, including personal knowledge of the members themselves.)

We have invested into our home with the constant blessing of our neighbors. They are very appreciative for what we have done. We also have a valley situation water coming from both directions. We will have round river walk replacing the current asphalt to catch the water and disperse in the rock bed compared to flooding.

**III. PURPOSE OF REQUEST**

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attach additional sheets if necessary. See "Procedures for Filing a Variance" for further information.

- 1. **Granting of the requested variance will not be contrary to the public interest**, because: (The proposed use must not conflict with the explicit or implicit purpose of the ordinance and that it must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

I have 4 registered vehicles and an RV. All my family is from out of town and we are very close. Overnight stays are normal. I need parking for a couple additional vehicles. I also live on a street that is "NO PARKING" on either side.

---

---

---

---

- 2. **The proposed use will observe the spirit of the ordinance**, because: (The Proposed use must not conflict with the explicit or implicit purpose of the ordinance and must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

I keep my property neat and tidy. I just want asphalt for neatness.

---

---

---

---

---

- 3. **Substantial justice would be done to the property-owner by granting the variance**, because: (The benefits to the applicant must not be outweighed by harm to the general public or to other individuals.)

It would prevent rocks and soil from being transferred to street, causing potential danger.

---

---

---

---

---

- 4. **The proposed use will not diminish the values of surrounding properties**, because: (The Board will consider expert testimony but also may consider other evidence of the effect on property values, including personal knowledge of the members themselves.)

It will be an oversized driveway which may increase value of my home and subsequently neighboring properties potentially.

---

---

---

---

---

- 5. **Special conditions exist such that literal enforcement of the ordinance results in unnecessary hardship, because:** (The applicant must establish that because, because of the special conditions of the property in question, the restriction applied to the property by the ordinance does not serve the purpose of the restriction in a "fair and reasonable" way. Also, you must establish that the special conditions of the property cause the proposed use to be reasonable. The use must not alter the essential character of the neighborhood. Alternatively, you can establish that, because of the special conditions of the property, there is no reasonable use that can be made of the property that would be permitted under the ordinance. If there is any reasonable use (including an existing use) that is permitted under the ordinance, this alternative is not available.

Makes maintaining property more difficult. I try to make things low maintenance and user friendly.
