We propose to furnish and install the following materials in accordance with the outline below:

New break metal for above and around newly installed windows as per site visit & discussion with Ron.

DARK BRONZE BREAK METAL: (*exterior perimeter and above*)

– .060 bronze anodized break metal (*various sizes to cover substrate above windows*).

Installed onto existing substrate panels above newly installed fixed window frames.

– .040 bronze anodized break metal (*various sizes to remaining perimeter of exterior windows only*).

Installed on exterior perimeter of newly installed fixed window frames. To include (1) piece of bronze break metal to cover exposed vertical metal columns between green and bronze storefront at sidewalk level.
