**ANALYSIS**

This resolution would authorize the City to go out to bid to design and construct trails through the recently acquired Terrell Homestead Conservation Area for the sum of \$400,000. Funds for the purchase will come from the Conservation Fund, Fund #4080.

Since the Conservation Commission acquired the Terrell parcels, there has been a focus on protecting the properties from damage. Over the last few months, the Conservation Commission has been developing plans to upgrade trails and construct new trails from Gilson Road through the Terrell parcels and by Lovewells Pond to Buck Meadow Road. The trails will have an educational component.

The Conservation Committee, by vote on June 17, 2014, recommended that funds in the Conservation Fund, Fund #4080, be used to design and construct conservation trails from Gilson Road to Buck Meadow Road.

NRO §5-118 provides that monies in the Conservation Fund may be expended by the Conservation Commission in accordance with applicable law and ordinances, subject to the approval of the Board of Aldermen. NRO §12-2 provides that the Conservation Commission has the power to go out to bid to construct conservation trails.
