

Main Street Sidewalk Update: June 12, 2015

Good Afternoon,

During the week of June 8, work continued on the Main Street sidewalk project on Block 4, from Eldridge Street to East Pearl Street, and on Block 5, from Eldridge Street to East Hollis Street.

Installation of irrigation and electrical conduit continued. Installation of control boxes for water and electricity began. Concrete pads on Block 5 were formed and poured. Two light pole foundations were installed. Three catch basins were raised. Brickwork and plantings continued on Block 5.

Next week, installation of water and electric control boxes will continue. A granite planter will be installed near the intersection of Eldridge Street and Main Street. Concrete pads will be formed and poured on Block 4. Conduit installation and brickwork will continue. Trees will be planted on Block 5.

Our schedule is tentative and subject to change due to weather or unforeseen circumstances. As always, we continue to do our best to limit obstruction of parking and impacts to businesses. We appreciate your patience and support. If you have any questions, don't hesitate to contact Andy Patrician, Operations Manager, on site, or at 589-3140. Have a great weekend.
