

## **Main Street Sidewalk Update: June 6, 2014**

Good Afternoon,

Work progressed on the Main Street Sidewalk Project the week beginning June 2, 2014. Workers accommodated The Taste of Downtown on Wednesday, and rain interrupted work on Thursday. Despite the shortened work week, lights in front of TD Bank were removed, and conduit was installed to West Pearl Street. Two light pole foundations near the bank were installed. Two trees were planted prior to the Taste of Downtown, with more plantings to continue next week. Brick work continued and installation of the rain garden began at the end of the week.

This coming week, beginning June 9, old sidewalk in front of TD Bank will be removed. Three concrete pads and two tip-downs will be formed and poured. Bollards at the corners of Main and High and Main and West Pearl streets will be installed. Brick work will continue. Installation of new streetlights will begin with the running of electrical wires in the conduit. Streetlights will be assembled in preparation for installation.

Our schedule is tentative and subject to change due to weather or unforeseen circumstances. As always, we continue to do our best to limit obstruction of parking and impacts to businesses. We appreciate your patience and support. If you have any questions, don't hesitate to contact Andy Patrician, Operations Manager on site or myself at 589-3140. Have a good weekend.

Lisa Fauteux, Director  
Division of Public Works
