

Main Street Sidewalk Update: May 30, 2014

Good Afternoon,

Work progressed on the Main Street Sidewalk Project the week beginning May 27, 2014. Brick work continued from Factory Street to High Street. Also, work continued from High Street to West Pearl Street. A granite planter in front of Scontsas Jewelers was installed. Conduit work was completed in the area for the fountain. Existing sidewalks were removed. Four concrete pads and a tip-down were formed and poured in front of Scontsas Jewelers.

This coming week, beginning June 2, work will begin in front of TD Bank. Lights in front of the bank will be removed. Conduit work will continue and installation of the rain garden in front of the bank will begin. A street light foundation will be installed. Workers will make sure the area is cleared in time for the Taste of Downtown on Wednesday evening. For the rest of the week, sidewalk will be removed and workers will begin forming and pouring concrete pads. Also, brick work will continue.

Our schedule is tentative and subject to change due to weather or unforeseen circumstances. As always, we continue to do our best to limit obstruction of parking and impacts to businesses. We appreciate your patience and support. If you have any questions, don't hesitate to contact Andy Patrician, Operations Manager on site or myself at 589-3140. Have a good weekend.

Lisa Fauteux, Director
Division of Public Works
