

## **Main Street Sidewalk Update: April 25, 2014**

Good Afternoon,

We made great progress on the Main Street Sidewalk Project during the week beginning April 21, 2014.

Work continued on the West Side of Main Street between Factory Street to the North and High Street to the South. Sidewalk in front of Yogurt in Love was removed. Concrete footing was poured around the vault in front of Yogurt in Love to support the sidewalk. A granite planter and an underground conduit for electrical wires and irrigation pipes were put in place. Two tree wells and the foundation for a streetlight pole were installed. Also, workers poured tip-down pads at the corner to allow sidewalk access for disabled pedestrians.

We anticipate continuing work along this section of Main Street beginning Monday, April 28, 2014. Concrete pads will be formed and poured and asphalt apron will be placed inside the curb line in the parking area. Another tree well and light pole foundation will also be installed and the underground conduit extended.

Our schedule is tentative and subject to change due to weather or unforeseen circumstances. As always, we continue to do our best to limit obstruction of parking and impacts to businesses. We appreciate your patience and support. If you have any questions, don't hesitate to contact Andy Patrician, Operations Manager on site or myself at 589-3140. Have a good weekend.

Lisa Fauteux  
Division of Public Works Director
