

Main Street Sidewalk Project – May 30, 2013

Good Afternoon

While we understand that a Thursday night is not the optimal night to do road work in downtown Nashua, last night's severe weather prevented us from doing work on the Main Street Bridge crosswalk that needs to be done prior to the next step planned for this Saturday. It is necessary to get this work done in order to keep the work plan moving forward and on schedule as best we can.

The Street Department will be working on the Main Street Bridge crosswalk tonight, Thursday, May 30, 2013 from 7:00 pm until 6:45 am Friday. Traffic will be reduced to one lane for both northbound and southbound traffic during the hours of the construction.

We will do our best to mitigate any hindrance to customers and businesses. Signage will be placed indicating to those entering the downtown that normal Thursday night business is open. Traffic control will direct vehicles.

Thank you for your patience and cooperation as we make improvements to Main Street.
