

## **Main St. Sidewalk Project - April 19<sup>th</sup>, 2013 Update**

During the week of April 15, after some issues with catch basins, we successfully pulled the old curb on the west side of Block 2, installed new curb and replaced three catch basins. Next week we anticipate installing 5 light pole foundations and completing underground electrical work. We will begin to set forms and pour concrete for the sidewalk beginning at Water Street and working south. Raised planting beds will be installed in front of Espresso Pizza and Cooking Matters. Green astro turf will be placed on the sidewalk to indicate to pedestrians where they should walk while the work is underway.

This is a tentative schedule and subject to changes due to weather or unforeseen circumstances. We are committed to doing our best to minimize inconveniences to both residents and merchants. Please do not hesitate to contact Superintendent of Streets Roy Sorenson on site or the Operations Manager Andy Patrician at 603-589-3140 with any questions or concerns.

As always, thank you for your patience and cooperation as we work to improve Nashua's downtown!
