MECHANICAL INSPECTIONS REQUIRED

The following inspections are required in Nashua as a minimum. Additional inspections may be necessary, depending upon specific circumstances. You must call at least one day in advance (589-3080) for these inspections before proceeding to the next building phase.

- 1. **Fuel fired appliances** – After installation, prior to any concealment; start up and testing
- 2. **Gas piping** – Natural and/or LP – Prior to any concealment and setting of meter or tanks; any additional branches to existing piping
- 3. **Storage tanks**
 - a. Underground – After tank and related piping are installed and prior to backfilling
 - b. Above ground and/or in buildings – After installation and testing (May be scheduled at time of appliance inspection if applicable)
- 4. **Fire and smoke dampers** – Prior to any concealment
- 5. **Commercial kitchen exhaust hoods and fans** – Prior to any concealment of equipment or ducts; at completion of work (The Fire Marshal’s approval is also required)
- 6. **Ductwork and smoke detectors** – Prior to insulation and ceiling tile installation or any concealment
- 7. **HVAC equipment, general** – Prior to any concealment; at completion and upon start up
- 8. **Metal chimneys** – Prior to any concealment; after installation
- 9. **Masonry fireplaces and chimneys** (3 inspections minimum)
 - a. Footing
 - b. At completion of the throat (smoke chamber) and prior to start of the chimney position
 - c. At completion
 - d. At the discretion of the inspector
- 10. **Wood stoves, pellet stoves and factory built fireplaces** – Prior to any concealment of vent pipe, chimney, or fireplace; at completion of installation
